The North Central Association Quarterly is published by the North Central Association of Colleges and Secondary Schools on the first day of July, October, January, and April. It is the official organ of the Association, and contains the proceedings of the annual meeting of the Association, together with much additional material directly related to the work of the Association. The regular subscription price is \$3.00 a year. The July number is priced at \$1.25; the others, 75 cents each. All members of the Association—institutional and individual—are entitled to receive the Quarterly as part of their annual fees. A special subscription price of \$2.50 per year is permitted to school libraries, college libraries, and public libraries and to individuals connected with North Central Association membership institutions.

Publication Office: The George Banta Publishing Company,
Menasha, Wisconsin.

Executive and Editorial Office: 4012 University High School
Building, Ann Arbor, Michigan.

Entered as Second-Class matter at the Post Office at Menasha,
Wisconsin, under the Act of August 24, 1912. Acceptance for mail-
ing at the special rate of postage provided for in Section 1103,
Act of October 3, 1917, authorized March 8, 1919.

ASSOCIATION NOTES AND EDITORIAL COMMENTS

THE editor wishes to thank all those who responded to his request for copies of the January, 1947, issue of the QUARTERLY.

SELLING THE N.C.A. SHORT

Not so long ago a certain metropolitan newspaper featured a series of articles severely criticizing the local schools. These articles did the usual thing: they quoted the views of so-called prominent citizens, parents, and teachers, and, of course, finally got around to a defense by the school superintendent. All of this follows a well known pattern and would merit no attention here were it not for the fact that the secretary of an important business men's organization was quoted at length as having said that the North Central Association was primarily to blame for the poor showing the schools were alleged to be making because it insisted upon a narrow college-preparatory curriculum which left no room for more practical subjects.

When the editor protested to this secretary and pointed out that he apparently did not have a basic knowledge of how the Association operates, he asserted that he had used information supplied by one of the high school principals concerned. Assuming that this explanation was a veracious one,

the reader can only surmise what prompted the principal in question to misstate the facts. Was he so ignorant of the practices of the Association as to believe what he said? Was he merely trying to extricate himself from a controversial situation by the well known process of passing the buck? Whatever his reasons may have been, he impaired the effectiveness of a friendly institution because the article referred to received wide circulation and laymen and others are in no position to know the facts.

The editor of the QUARTERLY squirms as his mail brings evidence of ignorance or confusion among school men concerning the essential policies and operations of the Association. Doubtless as much can be said for the secretaries of the three commissions and for every state chairman, to say nothing concerning the general secretary, who is in over-all contact with the Association as no one else can be. This uneasiness is caused by the feeling that, despite its constructive record, for one reason or another the Association is still occasionally sold short in its public relations by members of its own household. Perhaps the executive heads of member institutions should periodically provide evidence of a fairly comprehensive knowledge of the Asso-

ciation and its work as one of the conditions of continuing membership. This would provide at least a spot check of such knowledge but would yield no guarantee against incautious or ill-advised behavior toward the Association when the going gets rough. The latter is a matter of the spirit.

HARLAN C. KOCH

GRADUATE DEGREES IN AMERICAN INSTITUTIONS

July 1, 1946-June 30, 1947

In view of the known shortages of college teachers and trained personnel in other areas, a report recently released by the U. S. Office of Education¹ concerning the estimated number of higher degrees granted by 402 institutions within the year just closed is of especial interest. The institutions in question "are all those which were known or believed to offer graduate work." Replies were received from 398, of which 356 reported that graduate work was offered during 1946-47. A regional tabulation follows:

	First Graduate Degree	Second Graduate Degree
Continental U. S. and out- lying territories.....	35,919	3,707
New England and Middle Atlantic States.....	16,124	1,672
North Central States....	10,037	1,188
South Atlantic States....	2,589	290
South Central States....	3,001	140
Mountain and Pacific States.....	4,154	497
Outlying Territories.....	14	0

In the original report estimates are listed under forty categories. The following compilations have been taken from that array to show the situation as it exists in certain professional and academic fields.

¹ "Graduate Degrees: July 1, 1946-June 30, 1947." A Report Prepared at the Request of the President's Commission on Higher Education. Washington: U. S. Office of Education. Circular No. 235, May 21, 1947 (mimeographed).

	First Graduate Degree	Second Graduate Degree
Education.....	21,014	720
Engineering.....	6,556	348
Business.....	4,828	52
History.....	2,783	341
Chemistry.....	2,262	904
Languages.....	1,685	270
(Modern.....	1,309	192)
(Classical.....	376	78)
Economics.....	1,386	318
Political Science.....	1,212	202
Mathematics.....	1,056	209
Physics.....	998	298
Sociology.....	938	130

REQUEST FOR PRINTED MATERIALS FOR THE REORIENTATION PROGRAM IN OCCUPIED AREAS

From the Civil Affairs Division of the War Department comes an earnest request, signed by Robert B. McRae, Lt. Col., GSC, Chief, Reorientation Branch, for general and technical printed materials from the member institutions of the North Central Association to be sent to the peoples of the occupied areas in Europe and the Orient. Although other institutional publications are desired, *the need is urgent and immediate for the catalogs of American schools, colleges, and universities.* "These catalogs," says Lt. Col. McRae, "will be used not only in the reorientation of the various educational systems to more democratic bases, but will be of great value as working tools in promoting the cultural interchange of ideas, persons, and materials."

This request is being published here since "the War Department is not circularizing colleges and universities, but only a few organizations of broad scope such as your own."

Military Government authorities have requested that books, pamphlets, and periodicals in the following fields be mailed to the Information Centers through Army Post Office channels by individuals and organizations willing to make donations of this nature:

SUMMARY OF MAILING INFORMATION AND
LIST OF ADDRESSES

Packages of printed matter not exceeding 70 pounds in weight, nor 100 inches in combined length and girth, may be mailed at any Post Office at domestic postage rates, if addressed to an Army Post Office number such as contained in the addresses below, and marked "For Military Agency" on the label.

It is important that the addresses be followed exactly as written, and that no changes, omissions, or abbreviations be made in them. Publishers of magazines and books (with whom orders may be placed for mailing to the Center addresses) should be cautioned to follow the addresses exactly.

Shipments should be packed with care, since broken boxes may not reach their destinations.

AUSTRIA

Mail for Centers: Up to 70 pounds to addresses listed below at domestic rates. Mark labels: FOR MILITARY AGENCY.

Direct mailing: See instructions above. Printed matter up to 4 pounds 6 ounces may be addressed to Austrian nationals, universities, libraries, schools, etc., through ordinary international mail. Rates: 1½ cents per 2 ounces.

Information Centers

PROCEEDINGS OF THE COMMISSION ON COLLEGES AND UNIVERSITIES

FLOYD W. REEVES, Secretary

I. REPORT OF THE COMMISSION TO THE EXECUTIVE COMMITTEE

1. The Commission on Colleges and Universities recommends for accreditation by the North Central Association the following ten institutions which applied for accreditation in the year 1946-47:

Central State College, Edmond, Oklahoma
East Central State College, Ada, Oklahoma
Eastern New Mexico College, Portales, New Mexico
Fairmont State College, Fairmont, West Virginia
Indiana Central College, Indianapolis, Indiana
Midland College, Fremont, Nebraska
Minot State Teachers College, Minot, North Dakota
Northern Baptist Theological Seminary, Chicago, Illinois
St. Cloud State Teachers College, St. Cloud, Minnesota
Taylor University, Upland, Indiana

2. The Commission on Colleges and Universities reports that it declined to recommend for accreditation the remaining four institutions of higher education which applied this year for accreditation.

3. The Commission on Colleges and Universities recommends that, in view of the findings of the survey of Wilberforce University, ordered to be made in 1946-47, this institution be dropped from the accredited list.

4. The Commission on Colleges and Universities recommends that, in view of the findings of the survey of Xavier University, ordered to be made in 1946-47, this institution be continued on the accredited list.

5. The Commission on Colleges and Universities further recommends that all institutions now members of the Association not otherwise affected by actions taken in the meeting of the

Commission be accredited for the year 1947-48.

6. The Commission on Colleges and Universities further recommends that the final date for filing the preliminary application by institutions of higher education desiring to apply for accreditation be officially changed from October 15th to October 1st, and that the final date for filing the schedules be officially changed from December 1st to November 15th.

7. The Commission on Colleges and Universities also recommends that in passing upon the application of an institution of higher education for membership in the North Central Association, consideration be given to the accredited status of the institution with respect to any appropriate accrediting agencies that may exist within the state in which the institution is located.

8. The Commission on Colleges and Universities has elected, subject to the approval of the Association, the following members to the Commission:

COMMISSION MEMBERS

Class of 1948

College Member, to fill the vacancy caused by the resignation from the Commission of President J. L. Morrill:

Dean J. B. EDMONSON, University of Michigan

Secondary School Member, to replace Robert White, Jr., formerly Principal of Burlington, Iowa, High School but now officially connected with an institution of higher education:

HARRY P. COOPER, Principal, Marshall High School, Minneapolis, Minnesota

Class of 1949

Secondary School Member, to replace Paul W. Harnly, resigned from the Commission:

F. L. BACON, Superintendent, Evanston Township High School

Class of 1950

COLLEGE MEMBERS

CAREY CRONEIS, President, Beloit College
 CALEB F. GATES, Chancellor, University of Denver
 COLEMAN R. GRIFFITH, Provost, University of Illinois
 ALGO D. HENDERSON, President, Antioch College
 EARL J. McGRATH, Dean, State University of Iowa
 C. I. PONTIUS, President, University of Tulsa
 MALCOLM PRICE, President, Iowa State Teachers College
 NATHAN M. PUSEY, President, Lawrence College
 CHARLES J. TURCK, President, Macalester College
 WYNAND WICHERS, Vice President, Western Michigan College of Education

SECONDARY SCHOOL MEMBERS

OWEN A. EMMONS, Cooley High School, Detroit, Michigan

JOHN W. HENDERSON, Culver Military Academy, Culver, Indiana
 JULIAN MALINE, Regional Director, Jesuit High Schools, West Baden Springs, Indiana
 GEORGE S. OLSEN, Lyons Township High School and Junior College, LaGrange, Illinois
 R. NELSON SNIDER, South Side High School, Fort Wayne, Indiana
 ALVIN E. WESTGAARD, Pulaski High School, Milwaukee, Wisconsin

For the information of the Executive Committee it is reported that the Commission has elected the following officers:

Chairman: KENNETH I. BROWN President, Denison University
Vice Chairman: MALCOLM M. WILLEY, Vice President, University of Minnesota
Secretary: NORMAN BURNS, Assistant Professor of Education, University of Chicago

II. REPORT OF THE BOARD OF REVIEW TO THE COMMISSION

THE Board of Review has met four times since the meeting of the Commission last year, on July 16, November 15, February 21-22, and on Monday and Tuesday of this week, March 24-25. President Friley has already reported the Board's action following Mr. Russell's resignation as Secretary of the Commission. This report will deal with other matters which received the attention of the Board of Review at these four meetings. Some of these matters are reported for your information and others because they require your action.

At the meeting of the Commission last year the Secretary reported that in June, 1945, the Executive Committee of the Association had ordered that arrangements be made for a study of possible increases in dues of member institutions, that the Board of Review had authorized the appointment of a committee to give consideration to the matter, and that recommendations growing out of the work of this committee would be presented to you at

this meeting. At its June, 1947 meeting, however, the Executive Committee of the Association took action to increase the dues of member institutions, subject to the approval of the Association. In view of this action of the Executive Committee, no committee of the Commission was appointed.

One vacancy occurred on the Commission during the year. This vacancy resulted from the resignation of Mr. Frank E. Baker, of the Class of 1948, following his retirement as President of Wisconsin State Teachers College at Milwaukee. This vacancy was filled by election by the Board of Review, with confirmation by the Executive Committee of the Association, in accordance with the usual procedures for filling vacancies between annual meetings of the Commission. President Jim Dan Hill, of Wisconsin State Teachers College at Superior was elected to fill the vacancy.

The retirement in 1946 of Mr. H. M. Gage as President of Lindenwood College led to his resignation from the

Committee on the Evaluation of the Accrediting Procedures. This Committee is a committee of the Commission, with members representing the several types of colleges and universities. Its responsibility is that of passing upon the report forms and the procedures employed in the regular cycle of Biennial Studies. Miss Mary Ashby Cheek, President of Rockford College, was appointed by the Board to fill the vacancy caused by Mr. Gage's resignation.

At its March meeting the Board of Review authorized the next in the regular series of Biennial Studies, the Finance Study, to be made in 1947. In the preparation of the report forms used in the Biennial Studies, the Committee on the Evaluation of the Accrediting Procedures is assisted by four sub-committees representing each of the four groups of member colleges and universities. The Board of Review has authorized the Secretary to appoint these sub-committees. The personnel of these sub-committees and the results of their work will be reported at your next annual meeting.

At the meeting of the Board of Review in April, 1945, the following action was taken:

In his annual report the Secretary of the Commission shall mention by name every member institution which has been under consideration by the Board of Review during the year, shall indicate the circumstances which led the Board to give attention to the institution, and the disposition of the case. Nonmember institutions that are considered by the Board of Review shall not be mentioned by name, except to record the acceptance of those applying for accreditation.

This action of the Board of Review was subsequently confirmed by the Executive Committee of the Association, and in accordance with it the following matters are reported for your information:

In response to complaints regarding conditions at Arkansas Agricultural

and Mechanical College an investigating committee was appointed to report to the Board of Review at its November meeting. The Board accepted the report of this committee, and authorized the appointment of a committee to report to the Board on the situation at this institution at the Autumn meeting in 1947.

Last year the Secretary reported the receipt of a complaint regarding conditions at Duluth State Teachers College. An investigating committee was appointed to examine conditions at the institution. Following the receipt and acceptance of the report of the investigating committee at the July meeting of the Board of Review, a committee was again authorized to report to the Board at its annual meeting in 1948.

Last year the Secretary reported that the University of Dayton, Milwaukee State Teachers College, and La Crosse State Teachers College had requested approval of programs of graduate work leading to the Master's degree. The University of Dayton has since notified the Board of Review that it will discontinue its graduate program by the summer of 1948, when all students now enrolled in the program will have completed their work. La Crosse State Teachers College has also informed the Board that its previously proposed plan to offer graduate work will not be put into effect at the present time. The Board of Review at its July meeting recorded its approval of the graduate program at Milwaukee State Teachers College.

During the past year St. Paul Seminary requested approval of a program of graduate work leading to the Master's degree. Recent data on the institution were available, since it was accredited in 1946. Because of its high standing on those items considered significant for graduate work, the Board of Review, at its meeting in February, re-

corded its approval of the offering of work leading to the Master's degree at St. Paul Seminary.

In December, 1944, the Board took action requesting special reports on library, or on both library and finance, from thirty-two institutions, these reports to be filed in the Autumn of 1946. Twenty-five of the thirty-two institutions showed sufficient improvement to require no further special reports before the next in the regular series of Biennial Studies. These institutions are:

Calvin College
Carroll College (Helena, Montana)
University of Dubuque
Duchesne College
Gustavus Adolphus College

Illinois Wesleyan University
Iowa Wesleyan College
Jamestown College
John Carroll University
Lindenwood College

Marietta College
Marymount College
Missouri Valley College
Morgan Park Junior College
Nazareth College

Ottawa University
Phillips University
Potomac State College
St. Joseph Junior College
St. Mary of the Springs College

Springfield Junior College
Ursuline College
Valparaiso University
Webster College
Wittenberg College

Port Huron Junior College was notified that it would be requested to file a special report on library in the Autumn of 1948. Southwestern College was asked to file special reports next year on faculty, library, and finance. Surveys to be made in the academic year 1947-48 were ordered for Central College (Conway, Arkansas), Findlay College, Parsons College, Arizona State College at Flagstaff, and Western State College of Colorado.

Reports of advisory committees for ten institutions have been considered by the Board of Review this year. The institutions, and the action of the Board in each case, are as follows:

Anderson College: The report of the advisory committee was accepted and the appointment of an advisory committee to report two years hence was authorized.

Aquinas College: The report of the advisory committee was accepted and the appointment of an advisory committee to report two years hence was authorized.

Briar Cliff College: The report of the advisory committee was accepted and the appointment of an advisory committee to report two years hence was authorized.

Chicago Teachers College: The report of the advisory committee was accepted and the committee discharged.

Davis and Elkins College: The report of the advisory committee was accepted and the committee discharged.

National College of Education: The report of the advisory committee was accepted and the committee discharged.

Ouachita College: The report of the advisory committee was accepted and the appointment of an advisory committee to report two years hence was authorized.

Roosevelt College: The report of the advisory committee was accepted and the appointment of an advisory committee to report one year hence was authorized.

College of St. Teresa (Kansas City, Mo.): The report of the advisory committee was accepted and the appointment of an advisory committee to report next year was authorized.

Youngstown College: The report of the advisory committee was accepted and the committee discharged. In addition, the institution was notified that if its law school is not accredited by the American Bar Association and/or the Association of American Law Schools by January, 1952, a survey of the institution may be called for at that time.

In the report of the Board of Review last year it was stated that five institutions had failed to file reports required in the regular cycle of Biennial Studies. Since that time all of these institutions have filed their reports.

The following persons served this year as examiners of the institutions of which surveys were made:

REVEREND PIUS J. BARTH, O.F.M.
 PRESIDENT HAROLD C. COFFMAN
 REVEREND WILLIAM F. CUNNINGHAM, C.S.C.
 DEAN L. A. EUBANK
 DR. H. M. GAGE
 PRESIDENT HENRY G. HARMON
 DEAN MELVIN W. HYDE
 DR. C. W. KREGER
 DEAN DONALD M. MACKENZIE
 DEAN E. J. MCGRATH
 DEAN FLOYD B. MOE
 DR. M. G. NEALE
 PRESIDENT PAUL V. SANGREN
 DR. JOHN L. SEATON
 PRESIDENT THEODORE P. STEPHENS
 PRESIDENT W. W. WHITEHOUSE

The following matters require action by the Commission:¹

In the case of institutions making application for accreditation, the Board of Review recommends that the final date for filing the preliminary application be officially changed from October 15th to October 1st, and that the final date for filing the schedules be officially changed from December 1st to November 15th. This change would provide the Secretary's office with much needed additional time for analyzing the schedules and for communicating the results of the analysis to the institution, as well as for making arrangements for a survey in the event the institution, after it has been apprised of the results of the analysis of its schedules, decides to proceed with a survey.

The Board of Review also recommends that in passing upon the application of an institution of higher education for membership in the North Central Association, consideration be given to the accredited status of the institution with respect to any appropriate accrediting agencies that may exist within the state in which the institution is located.

Fourteen institutions were surveyed this year following their applications

for accreditation. The Board of Review recommends that the following newly applying institutions be recommended by the Commission to the Association for accreditation:

Central State College, Edmond, Oklahoma
 East Central State College, Ada, Oklahoma
 Eastern New Mexico College, Portales, New Mexico
 Fairmont State College, Fairmont, West Virginia
 Indiana Central College, Indianapolis, Indiana
 Midland College, Fremont, Nebraska
 Minot State Teachers College, Minot, North Dakota
 Northern Baptist Theological Seminary, Chicago, Illinois
 St. Cloud State Teachers College, St. Cloud, Minnesota
 Taylor University, Upland, Indiana

The Board of Review recommends that the remaining four newly applying institutions be declined accreditation. In accordance with the custom of the Commission, the names of these institutions are not made public. In each case, however, the recommendation of the Board was discussed with the Commission at its Executive Session held this morning.

Last year the Commission authorized the Secretary to initiate a survey of Wilberforce University unless the report of the advisory committee for that institution indicated that satisfactory conditions had been attained. In accordance with this authorization, and in view of the fact that no evidence was found which indicated that the unfavorable conditions which gave rise to the action of the Commission had been remedied, a survey of the institution was ordered to be made during the academic year 1946-47. On the basis of this survey, the Board of Review recommends that Wilberforce University be dropped from the accredited list.

During the past year Xavier University requested approval of a program of graduate work leading to the

¹ For the action taken by the Commission in each case, see Part I, above.

Master's degree. Since recent data were not available, Xavier University was asked to file current reports on faculty, finance, and library. These reports disclosed that the institution was low on certain of the items considered significant for graduate study. The Board of Review therefore ordered a survey of Xavier University to be made in the

academic year 1946-47. On the basis of this survey the Board recommends that Xavier University be continued on the accredited list.

The Board of Review recommends that all institutions now members of the Association not otherwise affected by actions taken in this meeting be accredited for the year 1947-48.

III. STATEMENT OF POLICY RELATIVE TO ACCREDITING¹

THIS statement of policy defines certain principles that will be followed in accrediting institutions of higher education. It is stated in general terms and includes brief descriptions of those characteristics of an institution that will be examined as a basis of accreditation.

This statement of policy is supplemented by a manual which contains elaborations of the statements here given and detailed directions for the execution of the policy here set forth. Upon each important issue the *Manual* contains specific directions for the collection of information and such norms and criteria as will make possible a fair and intelligent evaluation of an institution.

MEMBERSHIP

The North Central Association of Colleges and Secondary Schools will accredit and admit to membership as an institution of higher education a university, college, junior college, or institution of similar character that is judged to be of acceptable quality in matters later defined in this statement of principles. In the interpretation of this policy the liberty to integrate the whole or a part of a secondary school with a higher institution will be permitted.

¹ At the annual meeting of the Association in April, 1934, this statement of accrediting policy was unanimously adopted by the Association in lieu of the accrediting standards in use up to that time.

Eligibility for membership will be based upon the character of an institution as a whole, including all the units within its organization. In the case of units, such as professional schools, that fall within the areas of other accrediting agencies, the actions of such accrediting agencies will be taken into account; but the Association does not bind itself to accept the judgment of these agencies.

PURPOSES OF ACCREDITING

The purposes of the Association in accrediting higher institutions are as follows:

1. To describe the characteristics of institutions worthy of public recognition as institutions of higher education
2. To guide prospective students in the choice of an institution of higher education that will meet their needs
3. To serve individual institutions as a guide in interinstitutional relationships, such as the transfer of students, the conduct of intercollegiate student activities, the placement of college graduates, and the selection of college faculties
4. To assist secondary schools in the selection of teachers and in advising students as to a choice of institutions, and to promote in any other ways the co-ordination of secondary and higher education
5. To stimulate through its accrediting practices the improvement of higher education in the territory of the North Central Association

BASES OF ACCREDITING

An institution will be judged for accreditation upon the basis of the total pattern it presents as an institution of higher education. While in-

stitutions will be judged in terms of each of the characteristics noted in this statement of policy, it is recognized that wide variations will appear in the degree of excellence attained. It is accepted as a principle of procedure that superiority in some characteristic may be regarded as compensating, to some extent, for deficiencies in other respects. The facilities and activities of an institution will be judged in terms of the purposes it seeks to serve.

ELIGIBLE INSTITUTIONS

To be considered by the Association an institution must be incorporated as a nonprofit corporation devoted primarily to educational purposes and² legally authorized to confer collegiate degrees, or to offer a definitely described portion of a curriculum leading to such a degree, or to offer specialized curriculums leading to an academic certificate. An approved institution is not barred from offering curriculums terminating at the end of one, two, or three years if they are taught at the level of collegiate instruction. The curriculum should presuppose the completion of a secondary-school curriculum as a condition for entrance to the institution, or secondary courses should be so integrated with the curriculum of the institution itself as to guarantee the educational progress of students to a definite stage of advancement beyond the completion of the usual secondary-school offering. Before an institution will be considered for accreditation, it must have been in operation long enough to make possible an evaluation of its program.

² The words "incorporated as a nonprofit corporation devoted primarily to educational purposes and" were added to the Statement of Policy at the annual meeting of the Association in April, 1937.

INDIVIDUALITY OF INSTITUTIONS

In its accrediting procedures the Association intends, within the general patterns of higher education, to observe such principles as will preserve whatever desirable individual qualities member institutions may have. While it is necessary to emphasize certain characteristics that are recognized as basic, such as the competence of the faculty, the representative character of the curriculum, effective administration, standards of student accomplishment, and financial adequacy, it is regarded as of prime importance also to protect such institutional variations as appear to be educationally sound. Even in these basic matters it is clear that considerable divergence from average or optimum conditions may occur without perceptibly detracting from the essential educational worth of an institution. Uniformity in every detail of institutional policies and practices is believed to be not only unnecessary but undesirable. Well-conceived experiments aimed to improve educational processes are considered essential to the growth of higher institutions and will be encouraged.

PUBLISHED LIST OF ACCREDITED INSTITUTIONS

The Association will publish one list of accredited institutions of higher education. Attached to the name of each institution in the list will be notations relative to such objective facts as are pertinent to a description of the characteristics of an institution.

CONTINUING REVISION OF POLICY AND PROCEDURES

The effect of this program of accrediting upon the welfare of institutions is the vital matter in its formulation and adoption. Continuous study leading to adjustment and improvement is accepted as necessary to the

full fruitage of the plan and will be considered an integral part of the regular accrediting activities of the Association. It shall be the policy of the Commission to study the operation of the principles given in this statement of policy and of the detailed precedures described in the *Manual*.

In pursuit of this policy there will be collected periodically from member institutions such information as will contribute to the procedures of accrediting and will reveal the changing character of these institutions. It shall be the duty of the Secretary, with the counsel of the Board of Review, to conduct biennially a study in one of the following three areas: (1) faculty competence, (2) library, (3) finance. Other areas may be studied as the Board of Review deems desirable, but furnishing of information for general studies outside the three areas mentioned shall be on a voluntary basis on the part of member institution. The report forms shall be adapted to characteristics of the several types of institutions represented in the Association, and constructed in the simplest form consistent with usefulness.

CRITERIA OF INSTITUTIONAL EXCELLENCE

I. PURPOSES AND CLIENTELE

Recognition will be given to the fact that the purposes of higher education are varied and that a particular institution may devote itself to a limited group of objectives and ignore others, except that no institution will be accredited that does not offer minimal facilities for general education, or require the completion of an adequate program of general education at the collegiate level for admission.

Every institution that applies for accreditation will offer a definition of its purposes that will include the following items:

1. A statement of its objectives, if any, in general education
2. A statement of the occupational objectives, if any, for which it offers training
3. A statement of its objectives in individual development of students, including health and physical competence

This statement of purposes must be accompanied by a statement of the institution's clientele showing the geographical area, the governmental unit, or the religious groups from which it draws students and from which financial support is derived.

The facilities and activities of an institution will be judged in terms of the purposes it seeks to serve.

II. FACULTY

An institution should have a competent faculty, organized for effective service, and working under satisfactory conditions.

In determining the competence of the faculty, consideration will be given to the amount and kind of education that the individual members have received, to their experience in educational work, and to their scholarship as evidenced by scholarly publications and contact with learned societies. Attention will be given to the faculty requirements implied by the purposes of the institution. The educational qualifications of faculties in colleges of similar type will be considered in judging the competence of a faculty.

Under faculty organization consideration will be given to the number of the faculty in ratio to the number of students, to representation of the teaching fields, to the training of instructors in their fields of instruction, to group organization of the faculty, to faculty meetings, and to faculty committees.

Under satisfactory working conditions consideration will be given to the following: salary status; tenure; instructional load; recruiting, selec-

tion, and appointment; aids to faculty growth; and provisions for leaves of absence, retirement, insurance, housing, and recreation and community life.

III. CURRICULUM

The curriculum of an institution should contain the subject-matter offerings implied by its statement of objectives. In general, these offerings include provisions for general education, advanced courses when the purposes of an institution require such offerings, and special courses appropriate to the specific objectives which the institution claims as among its functions.

An institution should provide appropriate facilities for general education unless, as may be the case in a particular institution, its program presupposes the completion of an adequate program of general education at the collegiate level prior to entrance.

The organization of the curriculum should be such as will best serve students of the type whose admission is implied by the declared purposes of the institution. Responsibility for the grouping of curriculum content, as by courses, departments, or divisions, will lie with institutions. The merit of a curriculum organization will be judged primarily by the manner in which it functions.

The curriculum of an institution will be regarded as effective only when the faculty includes instructors competent by reason of educational preparation to offer instruction in announced courses.

The institution should be able to show clearly that the curriculum as described in published statements is effectively administered in the case of individual students and that there is reasonable adherence to stated requirements in the awarding of degrees and certificates of progress.

IV. INSTRUCTION

An institution will be expected to show a sympathetic concern for the quality of instruction offered students and to give evidence of efforts to make instruction effective. Consideration will be given to the emphasis placed by the institution upon teaching competence in the selection and promotion of teachers, to the manner in which young instructors are inducted into teaching activities, to the aids that are provided as stimuli to the growth of individual members of the staff, to the institution's concern for high scholarship in students, to its emphasis upon the adjustment of the curriculum and teaching procedures to the abilities and interests of students, to efforts to make such examinations as are given more reliable and more accurate measures of student accomplishment, and to the alertness of the faculty to the instructional needs of students. Familiarity of the administration and faculty with current discussions of instructional problems at the college level and with recent experimental studies of college problems are further evidences of institutional alertness to the need for good college teaching.

V. LIBRARY

The library should provide the reading facilities needed to make the educational program effective, and there should be evidence that such facilities are appropriately used.

In estimating the adequacy of the library, attention will be given to the holdings of standard works of general and special reference, to the holdings of magazines and periodicals, and to the number and variety of books. The use of the library by students and by the faculty, library expenditures over a period of years, the salaries of the library staff, the qualifications of the staff, and the administrative practices

relating to the library will all be considered in this connection.

VI. STUDENT PERSONNEL SERVICE

The policy of an institution in admitting students should be determined, on the one hand, by the purposes of the institution and, on the other, by the abilities, interests, and previous preparation of applicants. An institution should admit only those students whose educational interests are in harmony with the purposes of the institution and whose abilities and previous preparation qualify them to pursue the studies to which they are admitted.

The student personnel service of an institution should assist students to analyze and understand their problems and to adjust themselves to the life and work of the institution.

In evaluating the practices of an institution in the induction of students, attention will be given to the provision for preregistration guidance in cooperation with secondary schools, to the criteria used in the selection of students, to the administration of the stated entrance requirements, and to the arrangements for introducing new students to the life and work of the institution.

Consideration will be given to the means employed by an institution to assist students in the selection of courses and curriculums, in solving immediate academic problems, in furthering their scholastic development, and in making suitable vocational choices and preparation. Attention will also be given to the practices of an institution in counseling students about their health, their financial affairs, and their intimate personal affairs. The student's relation to extra-curriculum activities will also be studied. The practices of an institution in the provision and control of health services, in the

housing and boarding of students, in the management of extra-curriculum activities, in the control of student conduct, and in financial assistance to students will be considered.

VII. ADMINISTRATION

The administrative organization should be suitable for accomplishing the objectives of the institution. Adequate provision should be made for the performance of all administrative functions by a personnel competent in their respective lines of activity.

In evaluating the administration of an institution, the emphasis will be placed upon the manner in which the functions are performed rather than upon the organization or the personnel, although the suitability of the organization and the competence of the personnel cannot be ignored. Attention will be given to such matters as the constitution and activities of the board of control; the general system of administrative control; the administration of academic matters, such as curriculum, faculty personnel, and instruction; the business administration, including financial accounting, budgeting, purchasing, the collection of revenues, and the supervision of the finances of student activities; the administration of the physical plant; the management of invested funds, if any; the administration of the student personnel service; the administration of special educational activities, if any, such as summer session or extension services; and the system of records and reports.

VIII. FINANCE

The institution should provide evidence of financial resources adequate for and effectively applied to the support of its educational program.

The items of information to be considered in determining the adequacy of

the financial support are the expenditure per student for educational purposes;¹ the stability of the financing, as indicated by the amount of income per student from stable sources, and the avoidance of burdensome indebtedness; and the procedures in financial accounting and reporting. Necessary adjustments will be allowed for contributed services of instructors and administrative officers in Catholic institutions.

IX. PHYSICAL PLANT

The physical plant, comprising grounds, buildings, and equipment, should be adequate for the efficient conduct of the educational program and should contribute effectively to the realization of the accepted objectives of the institution.

In judging the plant, consideration will be given to the adequacy and effectiveness of such features as site; general type of buildings; service systems; classrooms, laboratories, and other facilities appropriate to the special purposes of the institution; office facilities; library building; facilities for health service, recreation, and athletics; dormitories; auditoriums; assembly rooms; and the operation and care of the plant.

X. INSTITUTIONAL STUDY

An institution should continuously study its policies and procedures with a view to their improvement and should provide evidence that such useful studies are regularly made.

¹ A phrase relating to the dependence of an institution upon student fees was deleted from the Statement of Policy at the annual meeting of the Association in April, 1937.

Consideration will be given to the means used by the institution in the investigation of its own problems, to the nature of the problems selected for study, to the staff making studies, to the methods employed, to the attitude of the administration toward and the support given to such studies, and to the manner in which the results are made available to the faculty, the administrative staff, and the interested clientele. It is recognized that such studies may be of many sorts, ranging from small inquiries of immediate service value to elaborately conducted experimental investigations. They may deal with any phase of the work of an institution, such as administration, curriculum, student personnel service, instruction, or any other matter of immediate or remote concern to the institution. An institution will be requested to provide typed or printed copies of completed studies.

XI. ATHLETICS

If the institution maintains a program of intercollegiate athletics, the same policies should prevail in regard to faculty, administration, and the management of students as are in force in connection with the other features of the institution.

In evaluating the athletic program, consideration will be given to the requirements for eligibility for participation; the distribution of scholarships, loan funds, grants of financial aid, and remunerative employment; the methods taken to safeguard the health of participants; the administrative organization; the financial control; and the competence of the staff.

IV. OPERATION OF THE ACCREDITING PROCEDURE

PROCEDURE TO BE FOLLOWED BY SENIOR
INSTITUTIONS APPLYING FOR
ACCREDITATION

A SENIOR institution seeking accreditation will initiate negotiations by filing a formal application with the Secretary of the Commission on Colleges and Universities on a blank especially provided for that purpose. This application will supply such information as will enable the Board of Review to decide upon the eligibility of the institution for consideration. The requirements for eligibility to membership in the Association are described in the Statement of Policy.

The application will be examined by the Secretary, who may request additional information upon any of the points if in his judgment such supplementary information is needed. In his discretion, the Secretary may advise the institution to proceed with its application. In that case he will proceed with the collection of such additional data as will be required for a full consideration of the application by the Board of Review, and will make the necessary arrangements for a survey of the institution. When the survey has been arranged, all other information in the possession of the Secretary will be turned over to the examiners. All the schedules of data will be included with the report of the examiners and filed with the Secretary for his use in presenting the case to the Board of Review.

In case the application indicates such unfavorable conditions in the institution as would likely lead to rejection of the application, the Secretary may, in his discretion, advise the institution to withhold its application until such conditions have been corrected. Such recommendation by the Secretary,

however, will not be binding upon the institution.

At the time an institution makes application for a survey it will pay a fee fixed by the Board of Review.

It is understood that, after preliminary consideration of this application by the Secretary, the application may be withdrawn by the institution at any time prior to the completion and filing with the Secretary of the regular schedules used by the Association in accrediting and, in case it is withdrawn, that ten dollars (\$10) of the fee will be retained and the balance returned to the institution. In case this application is withdrawn after the regular schedules have been filled out and returned to the Secretary and before the survey of the institution is made, twenty dollars (\$20) of the fee will be retained and the balance returned to the institution. Neither the whole nor any part of the fee will be returned to an institution after the survey has been completed. Institutions surveyed on occasions other than the time of application will pay a fee fixed by the Board of Review.

PROCEDURE TO BE FOLLOWED BY JUNIOR
COLLEGES APPLYING FOR
ACCREDITATION

Junior colleges seeking accreditation will make preliminary application to the General Secretary of the Association rather than to the Secretary of the Commission on Colleges and Universities and, on a form provided for the purpose, will indicate the type of organization and administration under which they operate.

The Secretary of the Association, with the assistance of the Secretary of the Commission on Colleges and Universities and the Secretary of the Commission on Secondary Schools,

shall determine whether an institution seeking accreditation operates its program in the college field as a distinct and independent unit or in combination with one or more years in the secondary field. Institutions of the first type shall be classified as Type I; and institutions of the latter type, as Type II.

If an institution is considered to fall into Type I, its application will be forwarded to the Secretary of the Commission on Colleges and Universities and the procedures of accreditation from this point on will parallel those for senior institutions. If, however, the junior college making application appears to have a program closely integrated with a secondary school or local public school system, information will be collected on special report forms adapted to the peculiarities of this type of school. One member of the examining committee for a Type II junior college will be named by the Board of Review of the Commission on Colleges and Universities and one will be selected from a list approved by the Committee of Seven of the Commission on Secondary Schools. The reports and recommendations of examining committees of Type II institutions will be acted upon by the Board of Review and the Committee of Seven in joint session. Institutions accredited under this procedure will be included in the list of member institutions published by the Commission on Colleges and Universities and also in the list of secondary schools published by the Secondary Commission. In its dealings with the Association, however, a Type II junior college shall be regarded as a single unit, and separate reports will not be required for its different levels of instruction.

FUNCTIONS OF THE SECRETARIES

Senior institutions seeking accredita-

tion by the North Central Association will make their initial contacts through the Secretary of the Commission on Colleges and Universities. Junior Colleges will make preliminary application to the General Secretary of the Association. Application in each case must be made not later than the first day of October preceding the annual meeting.

Upon acceptance of applications, the Secretary of the Commission on Colleges and Universities will send to senior institutions and to junior colleges classified as Type I appropriate schedules for filing the detailed information necessary for a full consideration for accreditation. The schedules must be completed and returned prior to the fifteenth day of November preceding the annual meeting. The Secretary will assemble these schedules, make such preliminary studies of the information as may be necessary, and make them available to the examiners appointed to visit each institution.

In the case of Type II junior colleges, the Secretary of the Commission on Colleges and Universities will function in conjunction with the Secretary of the Commission on Secondary Schools, and these officials will jointly arrange for the surveys.

Visits to institutions by the examiners will be scheduled at a sufficiently early date that a preliminary draft of their report may be in the hands of the Secretary of the Commission on Colleges and Universities at least thirty days before the annual meeting of the Association. The Secretary submits this report, together with any other pertinent data which he may have, to the full Board of Review some days prior to the annual meeting. (In the case of Type II junior colleges, the report also goes to the Committee of Seven of the Commission on Secondary Schools.) A preliminary draft of the

examiners' report, without their recommendation, will be transmitted to the president of the institution concerned sufficiently in advance of the meeting of the Board of Review to permit him to submit such comment as he may deem desirable.

In all matters relating to accreditation, the Secretary of the Commission on Colleges and Universities shall act as the executive officer of the Board of Review and of the Commission, serve as the channel of communication with institutions, prepare the necessary reports to institutions and to the Association, and perform all the usual duties attaching to such an executive officer. At the close of each annual meeting he will prepare for publication a list of accredited institutions in accordance with the procedure outlined in the Statement of Policy.

Many of the procedures of the accrediting policy of the Association will require more or less constant revision as new information becomes available. The Secretary, therefore, will preserve all records accumulating in his office and make them available as the Association, the Commission on Colleges and Universities, or the Board of Review may direct for such studies as may be useful in the improvement of the accrediting activities of the Association.

FUNCTIONS OF THE BOARD OF REVIEW

The Board of Review is the executive committee of the Commission on Colleges and Universities. It acts upon the application of an institution for accreditation and reports its decisions to the Commission on Colleges and Universities for action. The action of the Commission is final except that an institution may appeal to the Executive Committee of the Association, which in its discretion may confirm,

modify, or reverse the action of the Commission.

In the performance of its functions the Board of Review will receive from the Secretary the formal applications of institutions, authorize surveys, appoint examiners, receive through the Secretary the reports of examiners and such additional information as he may lay before them, give full and impartial consideration to such reports, and take appropriate action thereon.

At the annual meeting the Board of Review will report its actions, through the Secretary, to the Commission on Colleges and Universities and to the Executive Committee of the Association for acceptance, rejection, or modification, and later it will report to each applying institution the action taken upon its application. At the close of each annual meeting the Secretary will authorize the list of accredited institutions for publication.

FUNCTIONS OF THE EXAMINERS

Each institution applying for accreditation will be visited by examiners whose stay shall be long enough to enable them to form an estimate of the character of the institution and to determine the merit of its application. The examining team will include at least one member from an accredited institution of the same general type (e.g., junior college, teachers college, liberal arts college of simple organization, an institution of complex organization, etc.) as the institution being examined. Examiners will be selected in the light of special circumstances that may relate to the local situation. They will be informed on the nature of the institution being examined and on any special aspects involving public relations.

Before visiting an institution, the examiners will make a study of the

schedules collected by the Secretary and will note any items that need verification or amplification at the institution. Upon each important issue involved, this *Manual* contains comparative data, examples of practice, or other criteria by means of which the data on the schedules can be evaluated.

The examiner's duties at the institution will be as follows:

1. To check the accuracy with which the schedules have been completed
2. To discuss with administrative officers and with the faculty the implications of the available data and such characteristics of the institution as are not covered in the schedules
3. To gather through conferences with staff members and students such additional facts and impressions as will complete the examiner's knowledge of the quality of the institution
4. To fill in and complete the scorecards used for making the pattern map

When two or more examiners join in the examination of an institution, as will be the customary procedure, they will naturally divide the work of inspection, in order that the time may be shortened and the work more thoroughly done. This method also provides that two or more competent judgments instead of one will be available for the guidance of the Board of Review.

Experience has shown that time is usually saved and a better understanding of the relations of the administrative officers to one another obtained if the inspectors hold a conference at the beginning of the survey with the president and the chief administrative officers. This meeting may then be followed by the conferences with the individual administrative officers.

INTERVIEW WITH THE PRESIDENT

The examiner's visit to an institution should be so timed as to meet the convenience of the administration. Ordinarily the first person approached in an institution will be the president. He and his administrative associates

should be able to verify, as may be desired, the information given on the schedules, to answer any questions that have arisen in the minds of the examiners when the schedules were examined, to provide such additional information as may be desired, and to indicate what other officers may provide information not available in the president's office.

Some of the particular matters that should be discussed with the head of the institution follow:

1. The purposes of the institution
2. The selection, appointment, and promotion of members of the faculty
3. The records kept by the institution concerning the qualifications and activities of faculty members
4. The quality of the present faculty—the areas in which it is strong or weak
5. The organization of the institution and the administrative units such as schools, colleges, and departments. Particular inquiry should be made as to how essential administrative functions are performed
6. The organization of the faculty, officers, committees, faculty units, and methods of function in meetings
7. The sources and character of the student body
8. The curriculum of the institution—its character, its adequacy, and its relation to the purposes of the institution
9. Instruction in the institution and methods of its improvement
10. The personnel of the board of trustees
11. The functions performed by the board and its committees
12. The degree to which the board has authority to make final decisions affecting the institution
13. The extent to which interested groups of the constituency influence the affairs of the institution in ways other than through the regularly constituted officials of the institution
14. The relation of the board to its executive officer
15. The type of the administrative organization, both in theory and in actual practice, and the smoothness with which the administrative system operates
16. The adequacy of the number of administrative officers
17. The qualifications of the various subordinate staff members in the administrative offices

18. The financial policies of the institution, particularly as they relate to the increasing development of stable sources of revenue for the support of the academic program

19. The general athletic situation, and its bearing on the instructional and financial program of the institution

20. The plans for the development of the physical plant, including plans with respect to features in which improvements, renovations, or additions are needed

21. The budgetary system, including methods of preparing the budget, the manner in which it is presented to the board for consideration, and the control of budget expenditures

22. The plan for managing invested funds, if any

23. The types of special educational activities maintained, such as summer session and extension activities; the reason for the maintenance of such features; and the policy with respect to their financing

24. The system of reports, including such matters as the president's annual report, the treasurer's annual report, reports of deans and department or division heads

25. Plans for fostering investigation and study of institutional problems

26. Institutional policies and practices in student personnel work

This interview should give the head of the institution an opportunity to interpret and evaluate the educational quality of his institution. He should express his judgment as to its strengths and weaknesses, its special contribution to the national structure of higher education, its needs, and lines of future growth and improvement.

INTERVIEW WITH THE DEAN

Although the functions of college deans vary from one institution to another, they normally relate to the faculty, to the curriculum, to instruction, and to student problems. In the case of a particular institution the examiner will already have some information, and more will have been gained from the interview with the president. In interviewing the dean, an effort should be made to discover the administrative activities of the dean;

his relations to students; to the recruiting, appointment, and promotion of the faculty; to the organization, direction, and control of the faculty; to the curriculum and instruction; and also to other administrative officers, such as the president, the registrar, the business manager, and other deans. This interview should afford the dean the opportunity to reveal his judgment of the educational quality of his institution, his grasp of significant educational problems, and his awareness of current issues in higher education.

INTERVIEW WITH THE REGISTRAR

The chief aim of the interview with the registrar should be to verify and supplement the data submitted on the enrolment schedules and to secure such additional information regarding entrance requirements and practices, methods of registration, guidance, and enrolment as he may provide.

The registrar should give a clear explanation of his own activities and his relation to the activities of other officers, such as the president, deans, business manager, and the members of the faculty. His authority and his relation to students should be clearly reported.

The examiner should examine the records of the registrar's office relating to admission, examinations, and student marks. Inquiry should be made as to the methods employed to report the progress of students to the faculty, to parents, and to the student himself.

INTERVIEW WITH BUSINESS OFFICERS

The major officer (or officers, if there are more than one) in charge of business and financial affairs should be interviewed for the purpose of verifying information regarding the financial position of the institution and obtaining information regarding the methods

of conducting business affairs. The degree to which business affairs are centralized should be ascertained. The system of financial accounting should be examined to determine whether it conforms to accepted practices and whether the financial data reported are reasonably comparable with those obtained from other institutions. The system of budgetary control, the procedures used in purchasing supplies, and the plans for the collection of institutional revenue should be studied. The extent to which adequate supervision is exercised over the finances of student activities should be investigated. The plans for handling invested funds, the custody of securities, the policies relating to investments, and the distribution of investments among various types of holdings should be discussed with the proper officer. The administrative organization for the care and operation of the physical plant should be studied. The reports previously submitted with respect to such items as income, expenditure, and indebtedness should be tested by a check of original records or audits, in order to insure that all items have been properly interpreted and correctly reported.

INTERVIEW WITH THE LIBRARIAN

The interview with the librarian should have three purposes:

1. To obtain his account of the manner in which records previously submitted to the Secretary's office were prepared
2. To secure his account of the library's relation to the general administration
3. To learn of the interest taken in the library by the instructional staff as a whole and with such reference to individual departments as he may consider important

The holdings of the library should be examined by a sampling procedure to ascertain the extent to which the distribution of holdings reflects the purposes of the institution, the curriculum

offerings, and the enrolment by subjects and fields. Examinations should be made of such routines as are established for the recording of information concerning student use of the library and of particular parts of the collection. It is important that the librarian be asked to state uses to which such records are put wherever their use is not obvious.

INTERVIEWS WITH STUDENT PERSONNEL OFFICERS

Included in the group of personnel officers are such individuals as the dean of men, dean of women, director of the health service, nurse, placement officer, matrons of dormitories, and the coaching staff. In consultations with these various individuals the statement of duties and administrative relationships as reported on the schedules should be verified and the attitude toward students and student problems should be determined.

Inquiry should be made relative to procedures employed in counseling students. This will be done by ascertaining from student deans and others connected with personnel work the kinds of student problems evident at the institution and the methods used to aid students in dealing with them. The effectiveness of these procedures and of the institutional agencies for student guidance of extra-curriculum activities, scholarships, loan funds, and health and placement service should be studied.

As a further basis for evaluation, the records which are kept of students' personal histories, of extra-curriculum activities, of scholarship funds, of loan funds, and of the health and placement service should be examined.

INTERVIEWS WITH STAFF MEMBERS

From the data provided in the various schedules, from suggestions, direct

and indirect, and from the president and deans a number of staff members should be selected for interview. At times, the examiner may meet small groups; at other times, individual interviews may be more desirable.

In staff interviews, the fundamental matters for discussion are: students, curriculum, library, and instruction; although side lights upon the administration and the tone of the institution will frequently be secured. Appropriate inquiries may be made concerning the organization of the curriculum, the need for expansion or restriction, the methods of handling students, the selection of students, the means of improving instruction, the library, and similar matters. These interviews should reveal the degree to which the faculty is aware of current trends in higher education, of the advent of new methods of student management, of the reorganization of curriculums, of the changing emphasis upon examination practices and the need for their improvement, and of the contribution of experimental studies to educational improvement. In particular, they should reveal the instructor's familiarity with teaching development in his own subject.

INTERVIEWS WITH STUDENTS

It is advisable to consult different students relative to various aspects of the institution. These conferences should be made as informal as possible during visits to fraternity and sorority houses, dormitories, the library, or other places that afford opportunities for informal contacts.

EXAMINATION OF PLANT AND INSTRUCTIONAL FACILITIES

Inspection will be made of the physical plant, including buildings, grounds, and equipment.

REPORT OF EXAMINERS

Following the survey of an institution, the examiners will file the completed schedules, scorecards, and a written report with the Secretary. This report should be based upon the schedules submitted by the institution and the additional information secured during the inspectional visit. It should express the judgment of the examiners upon the educational quality of an institution and should contain a definite recommendation as to whether the application of the institution should be approved or declined. A clear statement of the grounds for the recommendation should be given.

It is not intended that the examiner's judgment will be determined wholly by the factual data available. It is his function to evaluate these data as accurately as possible, but in his inspectional contacts he will gather numerous impressions of existing conditions of a less objective and less tangible character that have a bearing upon the character of the institution. In the light of his total knowledge and impression of the institution, it will be his duty to form a judgment of the competence of the institution as an agency for the higher education of youth. It is this composite judgment of the educational competence of an institution rather than the meticulous conformity to detailed criteria that should be the basis of the recommendation to the Board of Review.

INSTITUTIONAL PATTERN

With the abolition of standards reliance devolves upon the evaluation of an institution as a whole. To make this policy effective, it is necessary to secure accurate information concerning all institutional characteristics which contribute significantly to the character of the institution as a whole.

THE PATTERN MAP

As a means of convenient visual representation of the status of an institution a pattern map will be prepared. This map will be divided horizontally into a number of sections each dealing with the various phases investigated such as: purposes, faculty, curriculum, instruction, library, student personnel service, administration, finance, physical plant, institutional study, and athletics. Under each of the main headings appropriate subheadings will be provided corresponding to the criteria that are noted in this *Manual*. For each criterion an appropriate vertical scale will be provided that will permit the representation of the relative standing of the institution on that point. A line connecting the points and indicating the standing of the institution on each item will provide a pattern map that will afford a ready visualization of the general condition of the institution as well as an indication of the particular points upon which the institution exhibits unusual strength or weakness.

For the construction of a pattern map for an individual institution there will be provided comparative data for each section considered. On each item a percentile distribution will be available that will permit the location of the institution with reference to a representative group of other institutions on the item concerned. This percentile position for each item will be plotted on the pattern map. The line joining such points provides the general picture of the institutional status. An average performance is indicated by the fiftieth percentile point. The best performance obtained from any institution is the one hundredth percentile, and the poorest performance on each item is the zero percentile.

The use of the pattern map in the accrediting of an individual institution

makes possible a flexible procedure. Each of the institutional characteristics for which measures are provided is in itself positively related to educational quality in an institution. The map exhibits the particular excellences and weaknesses of the institution and makes possible a judgment in which all these characteristics are taken into consideration.

It should be pointed out that the scales for the different items are not to be thought of as scales of absolute measure. They are based upon the data at hand and represent the best approximation to real values which is now possible, but the scales reflect only the relative status within the group of institutions for which data are now available. As more data become available, the scales will be corrected at many points. In order to make this device usable over a period of years, it is necessary that data be continuously assembled and that, as institutions improve, the scales be frequently readjusted.

As a part of the report made to the Board of Review on each institution considered for accreditation, a pattern map will be presented in accordance with the specifications outlined in this section. The Board of Review shall have power from time to time, as conditions warrant, to change the items entering into the pattern map or otherwise to alter it in the interest of improving the plan of evaluating institutions. The files of data accumulated in the Secretary's office shall be used in establishing percentile distributions serving as normative data to determine the position of specific institutions on each item.

INDIVIDUALITY OF INSTITUTIONS

The section on individuality of institutions in the Statement of Policy does not imply that all differences are

important or that all variations in institutional pattern and activity are justified. Many superficial differences have no significance in determining the educational quality of an institution. These will be disregarded in accrediting. Other departures from general practice may really detract from the educational services of an institution and justify the Association in withholding recognition. There are, however, many variations among colleges that appear to be educationally sound; it shall be the policy of the Association to foster and encourage variations of this type.

A brief statement of the areas in which such variations may occur is given here. Many of the implications of this section will be developed in the subsequent treatment of the procedures to be employed in passing judgment upon an institution. The general statements made here will be useful chiefly in suggesting the need for caution in applying general policies of accrediting to individual institutions.

DIFFERENCE OF PURPOSE

Higher education has many and diverse purposes. In some cases an institution will limit itself to a single purpose or to a limited group of purposes. Colleges of engineering, medical schools, and teachers colleges are illustrations. Accrediting methods should protect an institution in its unique purposes and encourage it to be the best possible school of its type. So long as a school adheres to a limited purpose, it should not be under pressure to become a different type of school. The expansion or modification of its curriculum, for instance, should be determined by the needs of the particular type of education to which it is committed. A change in the major purposes of an institution will constitute grounds for a re-evaluation of

the institution in terms of its modified purposes.

DIFFERENCES IN STUDENT ABILITIES

Over a period of years institutions tend to attract students of a particular type. This tendency is illustrated by uniformity in the intellectual level of entering Freshmen. In this respect wide differences prevail among institutions. Overlappings are common, but central tendencies are fairly distinct, and it is evident that a given institution may minister to a body of young people who, because of differences in intellectual powers, would be out of place in certain other institutions. It is not desirable that accrediting procedures should attempt to reduce all colleges to a common intellectual standard—for instance, by fixing a minimal score on an examination as an essential condition for entrance or graduation.

The Association may legitimately expect an institution to produce evidence that the significant characteristics of its student group are known to those responsible for administration and instruction and that reasonable efforts are made to adjust the activities to the needs of the particular body of students which the institution admits. An institution, however, should not be under pressure to select a particular type of student body, except in so far as the unique purposes of the institution may require students of a particular type.

DIFFERENCES IN CURRICULUM AND INSTRUCTION

Inasmuch as the curriculum is merely the means by which an institution seeks to accomplish certain purposes, it is clear that curriculums cannot be the same for all institutions if purposes vary. It is legitimate to inquire whether a curriculum is consonant with announced purposes,

whether it is taught by qualified instructors, and whether it is adequately supported financially and by laboratory and library facilities. Beyond such basic matters as these the institution should be free to select the content and procedures of instruction. Intimate with curriculum and instruction are standards of student achievement. The matter of such standards should remain clearly within the jurisdiction of individual institutions. What the Association will insist upon is sincerity of performance, honesty and fairness with students, and the absence of pretense that the institution is competent to perform certain functions which it is not.

DIFFERENCES IN ADMINISTRATION

Variations from the usual plans of institutional organization and administration may be justified in many cases. The competence of the administrative personnel is important, and inquiry may be made as to whether all the essential administrative functions are performed economically and in such a way as to facilitate educational purposes. Such inquiry should not operate to impose a standardized plan of administrative organization that will be exactly the same for every institution. Initiative in arranging the details of administrative organization should reside with those responsible for the conduct of the institution, although suggestions may be offered regarding plans that at present seem to be operating most effectively.

OTHER VARIATIONS

The foregoing enumeration of the areas in which the individuality of an institution should be protected is not

inclusive but illustrative. Other important variations may occur in student personnel service, in the amount and sources of support, in plant, in extra-curriculum activities, and in many other matters. The crucial question concerning any such variation is: Does it further the achievement of the purposes of the institution; does it detract from such achievement; or is it merely negligible? Unless there is clear evidence that variations are harmful to the declared educational purposes of an institution, they will not be regarded unfavorably by the Association.

ENCOURAGEMENT OF VARIATION

In matters so intimately related to life as education should be, it is of the utmost importance that institutions be kept fluid and adaptable. The constant and continuous effort to improve its work through well-conceived and carefully directed educational experiments is a powerful instrument in keeping an educational institution alert and its work vital. For this reason the Association looks upon efforts at educational experiment as an evidence of vitality in an institution. In fact, it might well feel concerned if, over a period of time no such efforts were in evidence in an accredited institution. Attention may properly be called to the qualification noted in this *Manual* that experiments of merit must be "well-conceived and carefully directed." The attempt merely to do something new may be deplorable, indeed, rather than meritorious. Opportunity will be given for each institution to set forth any unique features or practices which, in its judgment, should be protected in accrediting.

V. LIST OF ACCREDITED INSTITUTIONS OF HIGHER EDUCATION

Effective April 1947 to April 1948

Explanation of dates.—The dates listed are dates of membership. The first accredited list was published in 1913 and no institution was accredited prior to that time.

A dash connecting two dates indicates continuous accreditation during the period specified, e.g., 1915–1919 means continuous accreditation from 1915 to 1919 inclusive. A date followed by a dash indicates continuous accreditation to and including the current year.

A semicolon indicates that the institution was on the list for the year or years specified but that it was not on

the list for the following year, unless the next entry shows a change of classification for the latter years. For example, Iowa State Teachers College, at Cedar Falls, was on the first list of accredited teacher-training institutions published by the Association in 1913 and was continuously accredited to and including 1916; it was not on the list issued in 1917 but was restored in 1918 and was accredited continuously to and including 1929 as a teacher-training institution, as indicated in the footnote. It was transferred to the list of colleges and universities in 1930.

Institution	Location	President (or Chief Executive)	Date Accredited

ACCREDITED HIGHER INSTITUTIONS OUTSIDE N.C.A. TERRITORY

THE following are the latest lists of higher institutions accredited by regional agencies other than the North Central Association.

I. MIDDLE STATES ASSOCIATION OF COLLEGES AND SECONDARY SCHOOLS

COLLEGES

DELAWARE

Delaware State College for Colored Students,
Dover
University of Delaware, Newark

DISTRICT OF COLUMBIA

American University
Catholic University of America
Dunbarton College
George Washington University
Georgetown University
Howard University
Trinity College
Washington Missionary College

MARYLAND

College of Notre Dame of Maryland, Baltimore
10
Goucher College, Baltimore 18
Hood College, Frederick
Johns Hopkins University, Baltimore 18
Loyola College, Baltimore 12
Morgan State College, Baltimore
Mount St. Mary's College, Emmitsburg
St. Joseph's College, Emmitsburg
University of Maryland, College Park
Washington College, Chestertown
Western Maryland College, Westminster
Woodstock College and College of the Jesuit
Novitiate, Woodstock

NEW JERSEY

College of St. Elizabeth, Convent
Drew University, Madison
Georgian Court College, Lakewood
New Jersey College for Women, New Brunswick
Newark College of Engineering, Newark
Princeton University, Princeton
Rutgers University, New Brunswick
St. Peter's College, Jersey City
Seton Hall College, South Orange
Stevens Institute of Technology, Hoboken
University of Newark (merged with Rutgers
University July 1, 1946), Newark
Upsala College, East Orange

NEW YORK

Adelphi College, Garden City
Alfred University, Alfred
Bard College, Annandale-on-Hudson
Barnard College, New York City 27
Brooklyn College, Brooklyn 10
Canisius College, Buffalo
Clarkson College of Technology, Potsdam
Colgate University, Hamilton
College of the City of New York, New York
City 31
College of Mount St. Vincent, New York
City 63
College of New Rochelle, New Rochelle
College of St. Rose, Albany
Columbia University, New York City 27
Cooper Union, New York City 3
Cornell University, Ithaca
D'Youville College, Buffalo
Elmira College, Elmira
Fordham University, New York City
Good Counsel College, White Plains
Hamilton College, Clinton
Hobart College, Geneva
Hofstra College, Hempstead, L. I.
Houghton College, Houghton
Hunter College, New York City 21
Keuka College, Keuka Park
Manhattan College, New York City 63
Manhattanville College of the Sacred Heart,
New York City 27
Marymount College, Tarrytown
Nazareth College, Rochester
New York University, New York City 3
Niagara University, Niagara Falls
Notre Dame College of Staten Island, Staten
Island
Polytechnic Institute of Brooklyn, Brooklyn 2
Queens College, Flushing
Rensselaer Polytechnic Institute, Troy
Russell Sage College, Troy
St. Bonaventure's College, St. Bonaventure
St. John's University, Brooklyn 6
St. Joseph's College for Women, Brooklyn 6
St. Lawrence University, Canton
Sarah Lawrence College, Bronxville
Siena College, Loudonville

Skidmore College, Saratoga Springs
 Syracuse University, Syracuse
 Union College, Schenectady
 University of Buffalo, Buffalo
 University of Rochester, Rochester
 Vassar College, Poughkeepsie
 Wagner Memorial Lutheran College, Staten Island
 Wells College, Aurora
 William Smith College, Geneva

PENNSYLVANIA

Albright College, Reading
 Allegheny College, Meadville
 Beaver College, Jenkintown
 Bryn Mawr College, Bryn Mawr
 Bucknell University, Lewisburg
 Carnegie Institute of Technology, Pittsburgh
 Cedar Crest College, Allentown
 College of Chestnut Hill, Philadelphia
 College Misericordia, Dallas
 Dickinson College, Carlisle
 Drexel Institute of Technology, Philadelphia 4
 Duquesne University, Pittsburgh
 Franklin and Marshall College, Lancaster
 Geneva College, Beaver Falls
 Gettysburg College, Gettysburg
 Grove City College, Grove City
 Haverford College, Haverford
 Immaculata College, Immaculata
 Juniata College, Huntingdon
 Lafayette College, Easton
 LaSalle College, Philadelphia 41
 Lebanon Valley College, Annville
 Lehigh University, Bethlehem
 Lincoln University, Lincoln University P. O.
 Marywood College, Scranton
 Mercyhurst College, Erie
 Moravian College (for Men), Bethlehem
 Mount Mercy College, Pittsburgh
 Muhlenberg College, Allentown
 Pennsylvania College for Women, Pittsburgh
 Pennsylvania State College, State College

PROCEEDINGS OF THE COMMISSION ON SECONDARY SCHOOLS

EDGAR G. JOHNSTON, Secretary

I. THE REPORT OF THE COMMISSION

THE annual meeting of the Commission on Secondary Schools of the North Central Association of Colleges and Secondary Schools opened with a luncheon meeting of the Administrative Committee at the Palmer House on Monday, March 24. A meeting of state chairmen for discussion of common problems has come to be an annual tradition. This year the group was augmented by the presence of one high school member of each State Committee. The meeting, which convened at 2:00 P.M., was adjourned at 4:00 P.M. to permit a second meeting of the Administrative Committee. The variety of problems presented and the vigorous discussion suggest the desirability of a much longer meeting of State Committee representatives for an exchange of information about problems encountered and procedures followed by the several State Committees. Chairman Boardman indicated his hope of arranging for such a meeting in the fall of 1947.

An informal meeting of the Commission and invited members of Reviewing Committees was held at 7:30 P.M. Plans were laid for the next day's activities and Chairman C. W. Boardman announced the appointment of the Reviewing Committees listed below.

REVIEWING COMMITTEE ON SCHOOLS TO BE UNQUALIFIEDLY RECOMMENDED

EUGENE YOUNGERT, Illinois, *Chairman*

STEPHEN A. ROMINE, Colorado, *Assistant Chairman*

G. A. BECK, Minnesota, *Second Assistant Chairman*

Reviewing Committees met at 8:30 A.M. on Tuesday, March 25, and were in continuous session until 4:00 P.M. at which time the Chairmen of the several Reviewing Committees met with the twenty state chairmen to report committee decisions. At this time state chairmen were given an opportunity to raise questions concerning decisions affecting schools of their states.

WEDNESDAY MORNING SESSION

The first regular session of the Commission on Secondary Schools opened at 9:15 A.M., Wednesday, March 26. After announcing the appointment of a Nominating Committee composed of A. J. Gibson of West Virginia, *Chairman*, Father Julian L. Maline of Indiana, C. T. Feelhaver of Iowa, and George C. Wells of Arizona, Alternate, Chairman Boardman turned the meeting over to Eugene C. Youngert of Oak Park Township High School, Illinois, Vice-Chairman of the Commission, as presiding officer of the morning session. The theme of the meeting was "Education for National and International Understanding" and the following program was presented:

Education for National and International Understanding:

a. "Youth Looks at the Atom," PHILIP E. KENNEDY, Department of English and Co-Sponsor of the Oak Ridge High School Youth Council on Atomic Crisis, Oak Ridge, Tennessee

b. "Minority Problems in the Public Schools," Theodore B. H. Brameld, Professor of Educational Philosophy, University of Minnesota, Minneapolis, Minnesota

c. "What the High Schools Are Doing to Develop International and National Understanding," discussion with Harold Hand., Professor of Education, University of Illinois, as moderator and the following panel of student leaders: Steve Hlavach, Bloom Township High School, Chicago Heights, Illinois; Jared Ingersoll, Evanston Township High School, Evanston, Illinois; Mary Rountree, Horace Mann High School, Gary, Indiana; Barbara Ann Browne, University High School, Illinois State Normal University, Normal, Illinois; William Hodgson, New Trier Township High School, Winnetka, Illinois; Gregory Beggs, Oak Park and River Forest Township High School, Oak Park, Illinois; and Helen Munari, Wells High School, Chicago, Illinois.

It is to be hoped that both the papers presented and the discussion by the panel of high school students may appear in subsequent issues of the *QUARTERLY*. They will present to readers the urgency of the issue and suggestions for comparable programs which might well be arranged in each

member school of the Association. The meeting adjourned at 12:10 P.M.

WEDNESDAY AFTERNOON SESSION

The first business meeting of the Commission opened at 2:00 P.M., Wednesday, with Chairman C. W. Boardman presiding. Secretary O. K. Garretson presented a report on the activities of the Administrative Committee since the last annual meeting. Because of the change of date for submission of state reports from January 15 to March 15, the statistical summary of data from member schools was not ready for presentation. It is expected that this will appear in an early issue of the *QUARTERLY*. At the conclusion of his report, which he indicated was in the nature of a valedictory, Secretary Garretson received an ovation from the Commission for his seven years of efficient service in that position.

Carl G. F. Franzen of Indiana, a member of the Committee on Revision of the *Policies, Regulations, and Criteria*, presented the proposed revision for consideration and action by the Commission. At the request of the Committee, Dr. Franzen had analyzed the returns from member schools presenting their reactions to the proposed revision. In a brief general report he indicated that member schools had overwhelmingly endorsed the revision—approval on the various items ranging from 86 to 99 percent—but that significant suggestions and criticisms were presented on various specific items. Some of these suggestions merit careful consideration and possible modification or rewording.

Following the general report, the proposal was considered item by item and, on motion by Dr. Franzen duly seconded and passed, was adopted as printed in the form sent to schools or with minor modifications in line with

criticisms presented. On account of time, it was not possible to complete consideration of the revision at this meeting and the conclusion of Dr. Franzen's report and vote on the proposals was made the first order of business for the next meeting of the Commission. The meeting adjourned at 4:30 P.M.

THURSDAY MORNING SESSION

The second business session of the Commission opened at nine o'clock Thursday morning, with Chairman C. W. Boardman presiding. Official action on the separate items of the revision was concluded. On motion of Secretary Garretson, duly seconded and passed, it was directed that the revised *Policies, Regulations, and Criteria* be printed and distributed with the annual report blanks in the fall, for referendum vote of approval or disapproval. A motion made by Father Maline was seconded and passed unanimously, authorizing the Administrative Committee to make necessary minor editorial changes.

By invitation of the Chairman, Dr. George E. Carrothers, one of the North Central representatives and Chairman of the General Committee of the Co-operative Study of Secondary School Standards, presented a brief statement of the plans of the Co-operative Study for revision of the *Evaluative Criteria* and other publications of that body. He indicated that a request had been presented to the General Education Board for financial support of the revision and that the Committee hoped that each constituent association would indicate its support by voting a small financial contribution. On motion by Treasurer McVey, duly seconded and passed unanimously, the Commission voted to request the Administrative Committee: (1) to provide personnel for the continuation of

the Cooperative Study of Secondary School Standards, and (2) to recommend to the Executive Committee of the Association the continuing of appropriate financial support for the revision during the coming two years.

Dr. Youngert, Vice-Chairman of the Commission, assumed the chair. On motion, duly seconded and passed, it was agreed that the revisions of Regulation 6 and Criterion 4, voted by the Commission last year and printed in the 1946-47 *Policies, Regulations, and Criteria*, for the information of member schools, be held in abeyance pending action on the complete revision.

A. J. Gibson of West Virginia,

Chairman of the Nominating Committee, presented the following names in nomination: Chairman, C. W. Boardman, University of Minnesota, Minneapolis; Vice-Chairman, Ralph Stinson, State Department of Education, Topeka, Kansas; Secretary, Edgar G. Johnston, University of Michigan, Ann Arbor; Administrative Committee, L. R. Kilzer, University of Wyoming, Laramie, and M. R. Owens, State Department of Education, Little Rock, Arkansas (to fill out the unexpired term of Edgar G. Johnston); members-at-large of the Commission, Class of 1950: E. B. Weaver, Principal, Topeka High School, Topeka, Kansas;

Note: A satisfactory report of progress was presented to the Executive Committee by the Illinois State Committee on June 28, 1947, and the Chicago schools were added to the unqualifiedly approved list.

R. W. Bergstrom, Principal, Hutchinson High School, Hutchinson, Minnesota; J. W. Diefendorf, University of New Mexico, Albuquerque; Olton Hewitt, Principal, Grand Forks High School, Grand Forks, North Dakota; C. E. Haskins, Principal, Rapid City High School, Rapid City, South Dakota; Reverend A. F. Giunta, S.J., Principal, Rockhurst High School,

Kansas City, Missouri. After a call for nominations from the floor a motion was made, seconded, and passed that the Secretary be instructed to cast a unanimous ballot for these nominees.

After a short recess Chairman Boardman resumed the chair and reports of Reviewing Committees were presented and approved.

The meeting adjourned at 12:45 P.M.

II. POLICIES, REGULATIONS, AND CRITERIA FOR THE APPROVAL OF SECONDARY SCHOOLS

THE following general principles govern the thinking of the Commission on Secondary Schools in the formulation of its policies, regulations, and criteria:

1. Greater educational values are to be attained through wholesome stimulation and wise leadership of member schools than from complete reliance on the procedures and mechanics of accreditation. In an attempt to realize these values the Commission should:

a. Place greater responsibility for stimulation and leadership on the State Committees.

b. Stimulate, direct, and supervise the activities of the State Committees.

c. Initiate and direct long-time studies of changes in educational practices.

d. Place less emphasis on annual accreditation and more emphasis on programs of continuous evaluation.

e. Judge schools as a whole and permit marked superiority in one aspect to compensate for minor deficiencies in another.

f. Erase the artificial line of distinction between "academic" and "non-academic" phases of school work.

g. Evaluate schools on the basis of the degree to which their pupils achieve the goals indicated in the stated and approved philosophy and objectives for secondary education of the individual school.

2. In its attempt to stimulate, direct

and supervise the work of the State Committees and member schools, progress is best made through orderly and progressive change of the policies, regulations, and criteria.

POLICIES

1. A school which has submitted its annual report to the State Committee, which is in the highest class of schools as officially listed by the properly constituted educational authorities of the state and which has been approved continuously for five years shall not be dropped without a year's warning except by a three-fourths vote of the members of the Commission present. A school which has not been approved continuously for five years may be dropped without warning.

2. It is the policy of the Commission to recommend the removal from the approved list of the Association any school which after a year's warning continues to violate the same regulation or criterion for approval which was violated the previous year. Upon the recommendation of the State Committee, this policy, however, may be waived by a three-fourths vote of the Commission members present.

3. Secondary schools are approved for an indefinite period. All schools on the approved list, however, shall submit such reports as the Commission may require. The certificate showing

that a school is approved by the Association is valid as long as the school meets the conditions for approval as defined by the Commission on Secondary Schools and approved by the Association.

4. Credits acquired through summer session work, extension courses, correspondence courses or state examinations will be accepted by the Association as counting toward the preparation of the teacher if such credits are accepted by an approved institution of higher education.

5. The Chairman of the State Committee is the official agent of communication between the approved schools of the state and the Secretary of the Commission on Secondary Schools. He is responsible to the Commission for the distribution, collection and filing of all reports, and for such other duties as the Association may direct. In those states having an inspector of schools or other person with similar duties appointed by the state university, such person shall be the Chairman of the State Committee. In those states where there is no such official appointed by the state university, the inspector of schools or other person having similar duties appointed by the state superintendent of public instruction or state commissioner of education shall be the Chairman of the State Committee. In all other states, the Chairman of the State Committee is elected by the Association for an indefinite term on nomination of the Executive Committee.

6. The interim authority for interpreting policies, regulations, and criteria for the approval of secondary schools is the Secretary of the Commission on Secondary Schools.

7. It is the policy of the Association to warn high schools for violation of the conditions for eligibility to the approved list of the Association and

to drop from this list any high school which violates the same regulation or criterion during consecutive years. High schools also may be warned or dropped whenever it becomes evident that they frequently violate conditions for eligibility to the approved list. In the case of a minor violation, the Association may instruct the State Committee to advise the school concerned. It is the policy of the Association not to take an action which is different from that recommended by the State Committee without first notifying the committee of the state concerned.

8. In the case of individual schools of states, reasonable deviations from regulations and criteria may be accepted by the Commission and approved by the Association when recommended by the State Committee. Such recommendations must be supported by substantial evidence showing that these deviations are justifiable.

REGULATIONS

1. The Association is under no obligation to consider a school for unqualified approval unless the annual report blank has been properly and completely filled out as of October first and placed on file with the State Chairman not later than November first.

2. The Association shall decline to consider any school eligible for the approved list unless such school is in the highest class of schools as officially listed by the properly constituted educational authorities of the state.

3. A secondary school shall base its report on all grades included in its organization. A six-year high school may with the approval of the State Committee report upon the upper three years of the school.

4. No three-year school will be approved which employs fewer than four full-time teachers, or the equivalent.

No four-year senior high school will be approved which employs fewer than five full-time teachers, or the equivalent; and no six-year high school will be approved if it employs fewer than seven full-time teachers or the equivalent.

5. If any state fails for two successive years to send one or more official representatives to the Annual Meeting of the Commission on Secondary Schools, the schools of the state may, by vote of the Association, be dropped from the approved list.

6. (a) Three-year senior high schools shall require a minimum of twelve units for graduation. Four-year high schools shall require a minimum of sixteen units for graduation. In the case of schools using the semester hour plan for designating credit, three-year senior high schools shall require for graduation a minimum of 120 semester hours and four-year high schools shall require a minimum of 160 semester hours.

(b) The school year shall consist of a minimum of thirty-six weeks.¹

(c) The minimum length of a recitation period shall be forty minutes, exclusive of all time used in changing of classes or teachers.

NOTE: A unit course of study in a secondary school is defined as a course covering an academic year and including not less than the equivalent of 120 sixty-minute hours of class work. Two hours of work requiring little or no preparation outside the class are considered as equivalent to one hour of prepared class work.

A semester hour is defined as the amount of credit for the completion of a course covering one semester and which consists of one class period weekly not less than forty minutes in length under the direction of the teacher for which an equal amount of preparation on the part of the pupil is required. Two class periods requiring little or no preparation outside the class are considered as equivalent to one period of prepared class work.

¹ This is interpreted as consisting of a minimum of 172 days.

Credit assigned upon a basis of qualitative attainment, approved by the State Committee, may be accepted in lieu of this quantitative definition of a unit or of a semester hour.

CRITERIA FOR THE EVALUATION OF SECONDARY SCHOOLS

The standards of excellence which a school shall maintain are stated in terms of these criteria.

1. *Instruction and Spirit.*—The efficiency of instruction, the acquired habits of thought and study, the general intellectual and moral tone of a school and the cooperative attitude of the community are paramount factors, and, therefore, only schools that rank well in these particulars, as evidenced by a rigid, thorough-going, sympathetic evaluation, are considered eligible for the list of schools approved by the Association.

2. *The School Plant, Sanitation, and Janitorial Service.*—(a) The school plant is adequate for the number of pupils enrolled and program of studies offered.

(b) The lighting, heating and ventilation of the building, lavatories and toilets, wardrobes and lockers, water supply, school furniture, location of the classrooms, shops and laboratories, and janitorial service are such as to insure hygienic conditions for pupils and teachers.

(c) Provision is made for the safeguarding of dangerous power machinery with which pupils come in contact. Proper steps for protecting pupils against injuries are taken in laboratories, shops, gymnasiums, and other parts of the building or grounds where accidents are likely to occur.

3. *Instructional Equipment and Supplies.*—Instructional equipment and supplies, such as science laboratory apparatus, laboratory tables and demonstration desks; tools and machinery; gymnasium equipment and supplies; equipment for home economics and

agricultural laboratories; equipment and supplies for commercial rooms, art rooms, and music departments; visual aids equipment; maps and charts, are adequate to meet the needs of instruction for all courses offered.

Ample provision is made for the safe-keeping, systematic arrangement and care of all materials, supplies, and apparatus used in the instructional program. Good housekeeping will be regarded as essential to good instruction.

4. *The School Library and Library Service.*—The number and kind of books, reference material, and magazines are adequate for the number of pupils enrolled and meet the interests of the pupils and the needs of instruction in all courses offered.

The library is easily accessible to pupils, adequate in size, and attractive in appearance. The books are classified and catalogued.

The library is under the direction of a properly qualified person.

(a) In schools enrolling more than 800 pupils, the high school library is under the direction of a *High School Librarian*, namely, one who is a graduate of an approved library school which requires as a part of, or in addition to, the four years required for a degree, at least one full year of professional library training.

(b) In schools enrolling from 400 to 800 pupils, the one in charge of the high school library is either a high school librarian, as defined above, or a *Teacher-Librarian*, namely, a person who is qualified as a member of the teaching staff and who has completed a minimum of eight semester hours of training in library methods, including instruction in classification of books.

(c) Provision is made for an adequate number of assistants to the librarian.

(d) The high school librarian is recognized as a member of the teaching staff.

5. *School Records.*—Accurate and complete financial data and personnel records are kept in such form as to be conveniently used and safely preserved. The personnel record for each pupil should contain such essential data as courses taken with some valid indication of the quality of work done in each such course. Additional data secured from standardized tests, anecdotal records, parent or pupil interviews, personnel questionnaires, etc., may be added to the individual record to the degree that the facilities of the school permit. It may also include other information which the school considers valuable.

An official transcript (or a certified copy) of the college preparation of each teacher is kept on file in the office of the administrative head of the high school. All information submitted in the annual report which pertains to the preparation of teachers is secured from such official records. By an official transcript is meant the institutional credit record signed by the registering officer of the higher institution certifying the credits.

6. *The Policies of the Board of Education, the Administration of the School, and its Financial Support.*—(a) The policies of the board of education are such as to attract and retain the services of well-qualified and competent staff members. It is the policy of the board of education under which member schools operate to employ, promote, demote, and discharge teachers only upon the recommendation of the administrative head of the system. The working relationships between the board of education and the administrative head of the system as well as between the administrative head of the system and the principal of the sec-

ondary school are such as to insure the efficient and successful administration of the school.

In case of any deviation from this policy, the board of education shall submit evidence in writing to the State Committee showing that the action taken was clearly to the best interests of the school.

(b) It is the policy of the board of education to provide the clerical assistance required for an effective program of instruction, administration, and supervision.

(c) The administration of the school is such as to insure a well-organized and well-disciplined school, efficiently and intelligently supervised, and meeting the needs and interests of the pupils enrolled and of the community. Effectiveness of organization, permanency of tenure of all staff members, as shown by the history of the school, and the attitude and support of the community are matters which will be taken into consideration in determining whether the school is meeting the conditions for eligibility to the approved list.

The secondary school is under the direction of a well-trained and competent school administrator who possesses as a minimum a Master's degree from an institution of higher education accredited by the North Central Association of Colleges and Secondary Schools or by one of the other regional accrediting associations and whose college preparation includes an appropriate distribution of courses on the graduate level covering those phases of the school administrator's work which are professional in character, such as, secondary school administration, curriculum making, the supervision of instruction, personnel and guidance, methods of teaching, educational psychology, philosophy of edu-

cation, and the financial administration of secondary education.

In school systems where the administrative head of a secondary school is responsible to a superintendent or to an administrative head of the school system, such superintendent or administrative head of the school system has a Master's degree, as indicated above, including a similar and appropriate distribution of professional courses on the graduate level.

The principal or superintendent directly in charge of the secondary school has ample time during the school day for the administration and supervision of the school.

The administrative head of the school system has the power, delegated by the board of education, to make all assignments of teachers.

In a secondary school approved by the Association, the administrative head of the school is held responsible for seeing that all special activities, such as athletics, band, and various kinds of contests, contribute most effectively to the school's educational program.

(d) The financial condition of the school district or governing board is such that it is possible for the school to maintain all conditions for eligibility to the list of schools approved by the Association. The State Committee will be held responsible for determining whether the school is financially able to meet the conditions for approval.

7. *Preparation of the Instructional and Supervisory Staff.*—(a) All members of the instructional and supervisory staff (excepting the administrative head of the high school whose college preparation is indicated under Criterion 6) possess the minimum general training assumed to be guaranteed by a Bachelor's degree from an institution of higher education approved by

the North Central Association of Colleges and Secondary Schools or from an institution of equal standing. (Exceptions may be made when recommended by the State Committee in the case of teachers of certain industrial arts and trade courses who are legally qualified to teach in the state and who have had the apprenticeship training required in their respective trades.)

In evaluating the adequacy of the general preparation of the instructional and supervisory staff, State Committees will take into consideration the extent to which the staff as a whole has completed work beyond the Bachelor's degree, also the kind and distribution of college courses taken and the recency of their completion.

NOTE: Graduates of colleges not recognized by the North Central Association nor by any other regional accrediting agency may become eligible to teach in a secondary school accredited by the Association by being admitted to graduate standing in an institution of higher education accredited by the Association or by any other regional accrediting agency, and by completing successfully not less than six semester hours of graduate work. This part of the standard is not to apply to graduates of non-accredited colleges who desire to teach in the state where they graduated and where they are approved individually in accordance with the state plan.

(b) The minimum professional training of individual members of the instructional and supervisory staff (excepting the administrative head of the high school whose professional training is indicated in Criterion 6) is fifteen semester hours of education. In the case of a teacher whose professional training consists of less than fifteen semester hours, the State Committee shall have discretionary power to waive this criterion if in its judgment the teacher is otherwise highly qualified and is doing clearly superior work. (Until professional courses are defined by the Association, the Commission

will accept as such only courses certified as education by the institution in which they are earned.)

(c) All members of the instructional and supervisory staff are adequately prepared in those subjects and fields in which they are engaged.

All teachers in new schools making application for approval and all newly employed teachers in secondary schools now on the approved list of the Association shall, until such time as the Commission re-defines adequate preparation, have a minimum preparation for their respective teaching assignments in accordance with the following:

English, 15 semester hours.

Foreign languages, 15 semester hours in the language taught.

Science, 15 semester hours of which 5 shall be in the science taught.

Mathematics, 15 semester hours.

Social studies, 15 semester hours, which must include preparation in specific subjects taught.

Deduction in the fields of foreign language and mathematics may be allowed to the extent of 2 semester hours for each unit earned in high school not to exceed a total deduction of 6 semester hours.

In the case of teachers of subjects in such fields as agriculture, art and drawing, commerce, home economics, industrial arts, music, physical education, and speech, it shall be the responsibility of the State Committee to satisfy itself that teachers of subjects in these fields are relatively as well qualified as are those for which the minimum preparation is specified above. In judging the adequacy and comprehensiveness of the preparation of teachers, the State Committee shall take into consideration the amount of preparation in excess of the minimum specified above in the case of all teachers holding a major teaching assignment, namely, the teach-

ing of two or more sections, or more than 30 pupils, in a particular field.

NOTE: New full-time teachers may teach outside their fields of definite preparation a minor fraction of the school day when in the opinion of the State Committee this is the best temporary arrangement that can be made.

8. *The Teaching Load.*—The teaching load is not excessive. An average enrollment in the school in excess of thirty pupils per teacher is considered as a violation of this criterion. For the purpose of interpreting this criterion, the principal, vice-principals, study hall teachers, vocational advisers, librarians, and other supervisory officers may be counted as teachers for such portion of their time as they devote to the management of the high school.

9. *The Pupil Load.*—Four unit courses, or the equivalent, as defined in Regulation 6, are considered the normal amount of work carried toward graduation by the average pupil.¹ Only such pupils as rank in ability and achievement in the upper twenty-five percent of the school's enrollment may be allowed to carry for credit as many as five units or the equivalent.¹ A different practice in any school approved by the State Committee may be accepted by the Association.

10. *The Educational Program.*—(a) *Program of Studies.* The school's program of studies, the organization of curricula, and the daily schedule are such as to meet reasonably well the

needs and interests of the pupils enrolled.

(b) *Allied Activities Program.* The program of pupil and school activities is such as to meet the interests and needs of the pupils and of the community and is so planned as to contribute most effectively to the educational program.

To the end that all activities of the high school shall contribute most effectively to the educational program, a secondary school which is a member of the North Central Association of Colleges and Secondary Schools shall not participate in any district, state, interstate or regional athletic, music, commercial, speech, or other contests or tournaments involving the participation of more than two schools, except those approved by the State Committee, or by that organization recognized by the State Committee as constituting the highest authority for the regulation and control of such activities.

(c) *Guidance.* In judging an educational program, the effectiveness of the guidance service in helping pupils to adjust themselves to the environment of a complex civilization is regarded as an important factor.

(d) *Outcomes.* In the evaluation of an educational program, special attention is given to the various kinds of evidence indicating that desirable outcomes are attained.

(e) *The School and the Community.* The extent to which a secondary school is successful in establishing itself as an educational and recreational community center is taken into consideration in its evaluation.

¹ A reasonable activity program which is carried by the pupil, with or without credit, may be accepted.

THE CONSTITUTION OF THE ASSOCIATION

ARTICLE I. NAME

The name of this Association shall be the North Central Association of Colleges and Secondary Schools.

ARTICLE II. OBJECT

The object of the Association shall be the development and maintenance of high standards of excellence for universities, colleges, and secondary schools, the continued improvement of the educational program and the effectiveness of instruction on secondary and college levels through a scientific and professional approach to the solution of educational problems, the establishment of cooperative relationships between the secondary schools and colleges and universities within the territory of the Association, and the maintenance of effective working relationships with other educational organizations and accrediting agencies.

ARTICLE III. TERRITORY AND MEMBERSHIP

Section 1. The territory of the Association shall consist of the states of Arizona, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, West Virginia, Wisconsin, and Wyoming and/or such areas as may be hereafter included. Territory shall be excluded from, or included within the jurisdiction of the Association only upon the recommendation of the Executive Committee and by the vote of the Association. The recommendation of the Executive Committee shall be based on substantial evidence indicating that the action recommended represents the desire of the universities, colleges, and secondary schools of the territory concerned.

Section 2. The membership of the Association shall consist of three classes: (1) universities, colleges, and secondary schools; (2) officers of the Association and members of the Commissions; and (3) honorary members. Only members of Class 1 are eligible to vote at official meetings of the association.

It shall be understood that membership in the Association for universities, colleges, and secondary schools is purely voluntary. Although all decisions of the Association bearing on the policy and management of universities, colleges, and secondary schools are advisory in character, it shall be understood that the Association has the right to establish requirements for membership, to develop and establish criteria for the evaluation of universities, colleges, and secondary schools, and to establish and maintain all regulations and conditions for continued membership in the Association.

Section 3. Any university, college, or secondary school which has been approved by the Association shall be admitted to membership on the payment of the annual dues. Such membership shall cease if at any time the university, college, or secondary school resigns or is dropped from the approved list of the Association or if the annual dues are more than one year in arrears. Any lapse in membership shall date from July 1 next succeeding the Annual Meeting at which time action was taken to drop the member university, college, or secondary school in question.

Section 4. All individuals holding membership on commissions of the Association or serving as elected officers of the Association shall thereby become members of the Association.

Section 5. Honorary members shall be nominated by the Executive Committee and elected by the Association by a two-thirds vote of all members present and voting at any session of the Association held during the Annual Meeting. Such individuals are honorary members of the Association and not honorary members of any particular commission.

Section 6. Honorary members shall receive the NORTH CENTRAL ASSOCIATION QUARTERLY and shall have all the privileges of membership in the Association except voting.

Section 7. Honorary members, officers of the Association, and members of the commissions shall not be required to pay dues as hereinafter defined.

Section 8. Members of the Association, honorary members, individuals officially connected with a university, college, or secondary school which holds membership in the Association, and individuals who are officially connected with the state department of public instruction of a state which is included in the territory of the Association shall have the right to attend the meetings and to participate in the activities of the Association and of the various commissions. It shall be understood, however, that attendance at such meetings and participation therein shall be in accordance with the provisions of this constitution and also with the policies adopted by the various commissions and by the Executive Committee.

ARTICLE IV. OFFICERS, COMMISSIONS, AND COMMITTEES

Section 1. The officers of the Association shall be a president, a vice president, a secretary, and a treasurer. The president and vice president shall be elected at the Annual Meeting of the Association for a single term of one year or until their successors are elected. The secretary and the treasurer shall be appointed by the Executive Committee and shall serve without compensation. Their terms of office shall be determined by the Executive Committee.

All officers of the Association and of the commissions shall be officially and actively connected with a university, college, or secondary school which holds membership in the Association or with the state department of education of a state in the territory of the Association as defined in Article III, Section 1.

Section 2. There shall be an Executive Committee, a Commission on Colleges and Universities, a Commission on Secondary Schools, and a Commission on Research and Service, and these shall be constituted as hereinafter defined.

The Executive Committee and the various commissions of the Association shall, within the limitations imposed by the constitution of the Association, have the right to determine their own procedures and to establish rules and regulations for governing such procedures.

Section 3. The Executive Committee.

The Executive Committee of the North

Central Association of Colleges and Secondary Schools shall consist of the president, the vice president, the president of the Association during the preceding year, the secretary, the treasurer, the chairman and the secretary of each of the commissions provided for in Article IV, Section 2, and four additional members, one of whom shall be elected each year for a term of four years. Qualifications for membership on the Executive Committee shall be the same as prescribed for officers of the Association in Article IV, Section 1.

The Executive Committee shall receive from the Commission on Colleges and Universities the list of colleges and universities recommended for membership in the Association, shall receive from the Commission on Secondary Schools the list of secondary schools recommended for membership in the Association, shall pass upon such lists and shall submit them to the Association for final approval. It shall publish in the official organ of the Association, the NORTH CENTRAL ASSOCIATION QUARTERLY, the lists of universities, colleges, and secondary schools approved by the Association.

The Executive Committee shall have final authority to hear appeals from the decisions of the commissions relative to the approval of universities, colleges and secondary schools and to determine the action to be taken upon such appeals.

The Executive Committee shall be under no obligation to a member university, college, or secondary school to consider any appeal from the decision or action taken by a commission unless such appeal is filed with the Executive Committee within thirty days following the Annual Meeting. Before taking final action on an appeal, the Executive Committee shall request the officers of the commission concerned to make a recommendation and to submit therewith all facts pertinent to the case.

The Executive Committee shall nominate persons for membership in the various commissions. Such nominations shall be limited to those persons recommended for membership in the commission by the commission concerned. Persons nominated by the Executive Committee for membership in the various commissions shall be elected by the Association in accordance with the provisions of the constitution.

The Executive Committee shall determine the time and place of the Annual Meeting of the Association, prepare the programs for the meetings of the Association, approve all programs for the meetings of the various commissions, provide for the publication of reports and proceedings, and transact any necessary business. The Executive Committee shall also fill all interim vacancies in the offices of the Association, and upon recommendation of the commissions concerned shall fill interim vacancies in the membership of the various commissions.

It shall be the duty and responsibility of the Executive Committee to coordinate the work of the various commissions in such ways as to further most effectively the object of the Association.

The Executive Committee shall have the power to authorize and approve all expenditures of funds and to require each commission to submit to it a budget. The proposed budget submitted by each commission to the Executive Committee for approval shall be a complete forecast embracing (1) the program of activities, (2) the estimated receipts together with their sources, and (3) the estimated expenditures necessary to carry out the work of the commission. It shall be the duty and responsibility of the Executive Committee to approve or disapprove in advance of any commitments the proposed program of activities of each commission.

At each Annual Meeting the Executive Committee shall submit to the Association a detailed report of income and expenditures. At the close of the fiscal year the Executive Committee shall require an official audit of all Association Accounts to be made by an auditor selected by the treasurer and approved by the Executive Committee. The audited report shall be published in the NORTH CENTRAL ASSOCIATION QUARTERLY.

All actions taken by the Executive Committee shall be subject to approval or revision by the Association with the exception of actions taken relative to those matters over which the Executive Committee has been given final authority.

Section 4. The Commission on Colleges and Universities.

The Commission on Colleges and Universities shall consist of forty-eight persons,

thirty from the member colleges and universities and eighteen from the member secondary schools. These shall be elected by the Commission subject to the approval of the Association for a period of three years, ten members of the first group, and six of the second to be elected annually.

No member of the Commission may serve more than two terms consecutively, except the Secretary of the Commission and except in the case of a member of the Board of Review who shall automatically remain a member of the Commission until his retirement from the Board.

The officers of the Commission on Colleges and Universities shall be a chairman, a vice chairman, and a secretary. These officers shall be elected by the Commission in accordance with its own policies and regulations. The length of term for each officer shall be determined by the Commission.

There shall be a Board of Review whose membership shall consist of the chairman of the Commission, ex officio chairman of the Board of Review; vice chairman of the Commission, ex officio vice chairman; the secretary of the Commission, ex officio secretary and four members of the Commission to be elected by the Commission for overlapping terms of six years each, and upon the expiration of this term no member may succeed himself.

The Commission shall prepare a statement of policy to guide member colleges and universities and also colleges and universities seeking approval by the Association, which statement of policy shall be submitted by the Executive Committee to the Association for approval or rejection; shall receive and consider applications and reports from colleges and universities within the territory seeking approval for membership in the Association; shall make such examinations and surveys of these colleges and universities as it deems necessary; shall make examinations or surveys of member colleges and universities as conditions may require; shall request periodic reports from member colleges and universities; shall prepare a list of colleges and universities recommended by the Commission for accrediting by the Association; shall submit this list to the Executive Committee for approval and publication; shall submit to

the Executive Committee for final approval by the Association the list of individuals elected to membership on the Commission; shall submit its proposed budget to the Executive Committee for approval; and shall make and publish studies of educational problems approved by the Executive Committee.

The Commission on Colleges and Universities may, with the approval of the Executive Committee, grant a college or university the necessary freedom to carry on any educational experiment that the Commission has approved.

During the interval between the Annual Meetings of the Association, the Board of Review shall have the authority to carry on the necessary business of the Commission on Colleges and Universities.

Section 5. The Commission on Secondary Schools.

The Commission on Secondary Schools shall consist of the members of the Commission on Secondary Schools for each of the several states comprising the territory of the Association and eighteen other persons elected by the Commission subject to the approval of the Association for a period of three years, one-third of this number to be elected each year.

The State Committee on Secondary Schools shall consist of the high school visitor or corresponding officer of the state university, or a member of his staff designated by him; or, in case there is no such officer, some member of the faculty designed by the president of the state university; the inspector or supervisor of high schools of the state department of public instruction; or, in case there is no such officer, a member of the staff of the commissioner of education or superintendent of public instruction designated by him; and, for states having fewer than 300 high schools accredited by the Association, three administrative heads of secondary schools accredited by the Association; and, for states having 300 or more high schools accredited by the Association, five administrative heads of secondary schools accredited by the Association.

In the event that the president of the state university should refuse or fail to designate a member of the faculty to serve on the State Committee on Secondary

Schools, and/or in the event that the superintendent of public instruction or commissioner of education should refuse or fail to designate a member of his staff to serve on the State Committee, the Executive Committee of the Association shall fill such vacancies by nominating for election by the Association persons recommended by the Commission on Secondary Schools.

The administrative heads of secondary schools to be included in the membership of a State Committee shall be recommended for membership by the association of high school principals or corresponding organization of the state, and their names shall be transmitted to the secretary of the Commission on Secondary Schools by the chairman of the state committee. All members of the state committee on Secondary Schools shall be recommended by the Commission on Secondary Schools, and they shall be nominated by the Executive Committee for election by the Association. The chairman of each state committee shall be designated by the Commission on Secondary Schools in accordance with its adopted procedures subject to the approval of the Executive Committee. The term of membership of administrative heads of high schools on State Committees shall be three years, and no such member shall serve more than two consecutive three-year terms.

No member of the Commission on Secondary Schools may serve for more than six years consecutively, excepting (1) the two members of each State Committee who represent the state university and the state department of public instruction respectively and who automatically shall remain members of the Commission until their retirement from the State Committee, and (2) members of the Administrative Committee of the Commission on Secondary Schools, who automatically shall remain members of the Commission until their retirement from the Administrative Committee.

The officers of the Commission on Secondary Schools shall be a chairman, a vice chairman, and a secretary. These officers shall be elected by the Commission in accordance with its own policies and regulations. The length of term of each officer shall be determined by the Commission.

There shall be an Administrative Committee of the Commission on Secondary Schools composed of the chairman of the Commission, ex officio chairman of the administrative Committee; the secretary, ex officio secretary; the preceding chairman; and four members elected by the Commission at the time of the Annual Meeting of the Association for a period of four years, one member to be elected each year.

The Commission shall prepare for the guidance of member schools and secondary schools seeking the approval of the Association a bulletin setting forth policies, regulations, conditions for accrediting, and criteria for the evaluation of secondary schools. Prior to the publication of this bulletin, it shall be submitted by the Executive Committee to the Association for approval or rejection. The Commission shall receive and consider applications and reports from secondary schools within the territory of the Association seeking approval for membership in the Association; shall make such examinations and evaluations of these schools as it deems necessary; shall make such examinations or evaluations of member schools as conditions may require; shall request periodic reports from member schools; shall prepare a list of secondary schools recommended by the Commission for accrediting by the Association; shall submit this list to the Executive Committee for approval and publication; shall submit to the Executive Committee for final approval by the Association the lists of members elected by the Commission; shall submit its proposed budget to the Executive Committee for approval; and shall make and publish studies of educational problems approved by the Executive Committee.

The Commission on Secondary Schools may, with the approval of the Executive Committee, grant a secondary school the necessary freedom to carry on any educational experiment that the Commission has approved.

During the interval between the Annual Meetings of the Association, the Administrative Committee of the Commission on Secondary Schools shall have the authority to carry on the necessary business of the Commission on Secondary Schools. During this interval, the secretary of the Commis-

sion shall have the authority to interpret policies, regulations, and criteria. Any appeal from the interpretations and decisions of the secretary of the Commission shall be made to the Executive Committee.

Section 6. The Commission on Research and Service.

The Commission on Research and Service shall consist of twenty-four persons; twelve from member colleges and universities and twelve from member secondary schools. These shall be elected by the Commission subject to the approval of the Association for a period of three years, four members of each group to be elected annually. No member of this Commission shall serve for more than two consecutive three-year terms.

The officers of the Commission on Research and Service shall be a chairman, a vice chairman, and a secretary. These officers shall be elected by the Commission in accordance with its own policies and regulations, but subject to the limitations imposed by the constitution. All officers of the Commission shall be selected from among those who are members of the Commission, and it shall be understood that the term of each officer shall not extend beyond the date of the expiration of his term as a member of the Commission.

There shall be a Steering Committee whose membership shall be determined by the Commission in accordance with its own policies and regulations.

The Commission on Research and Service shall initiate, plan, and carry forward studies in the fields of educational and institutional research and service pertaining to universities, colleges, and secondary schools, subject to the approval of the Executive Committee; shall, subject to the approval of the Executive Committee, engage in such research, study, and activity as either of the other commissions may request; shall engage in such research, study, and activity as the Executive Committee may request; shall report its findings to the appropriate commission or commissions and to the Association, as directed by the Executive Committee; shall submit its proposed budget to the Executive Committee for approval; shall submit to the Executive Committee for final approval by the Association the list of individuals elected to

membership by the Commission; and shall furnish leadership in interpreting its research findings and in focusing attention on those problems which are in need of consideration.

During the interval between the Annual Meetings of the Association, the necessary work and business of the Commission on Research and Service shall be administered by a committee consisting of the officers of the Commission.

Section 7. Nominating Committee.

Prior to each Annual Meeting of the Association, the president shall appoint, subject to the approval of the Executive Committee, a committee of five persons whose duty it shall be to nominate properly qualified persons for election to the offices of president and vice president, to membership on the Executive Committee, and to any office not elsewhere provided for by the constitution. The announcement of these nominations shall be made during the first session of the Association held during the Annual Meeting, but election shall take place during a later session. Independent nominations may be made upon the written petition of any ten persons who are members of the Association or official representatives of member institutions. The list of persons so nominated shall be filed with the secretary of the Association not later than twelve hours prior to the opening of the session during which the election of officers is to take place.

Section 8. The Editorial Board.

The Editorial Board shall consist of the president, secretary, and treasurer of the Association, the secretaries of the commissions, and a managing editor selected by the Executive Committee.

ARTICLE V. MEETINGS

There shall be an Annual Meeting of the Association at such time and place as may be determined by the Executive Committee and approved by the Association. Meetings of the various commissions shall be held during the week of the Annual Meeting of the Association. Other meetings of the Association and/or other meetings of any commission may be held when such meetings are authorized by the Executive Com-

mittee and approved by the Association.

ARTICLE VI. FEES

An annual fee shall be paid by each member university, college, and secondary school. The amount of the fee shall be fixed by the Executive Committee, subject to the approval of the Association.

Member universities, colleges, and secondary schools are entitled to have the services of the Association and to receive the NORTH CENTRAL ASSOCIATION QUARTERLY and/or such other publications as may be authorized for distribution.

ARTICLE VII. THE RIGHT TO VOTE

Section 1. Only members of a commission shall have the right to vote at official meetings of the commission of which they are members.

Section 2. All votes at official meetings of the Association shall be by member universities, colleges and secondary schools. Each member university, college, and secondary school shall have only one vote on any question before the Association, and this vote shall be cast by an officially designated representative.

ARTICLE VIII. QUORUM

Fifty voting members of the Association shall constitute a quorum for conducting business at any official meeting of the Association.

ARTICLE IX. AMENDMENT

This constitution may be amended by a three-fourths vote of the voting members at any official meeting of the Association, provided that a printed notice of any proposed amendments has been sent to each individual who is a member of the Association and to each member university, college, and secondary school at least two weeks prior to the date of said meeting.

ARTICLE X. PROCEDURE

Parliamentary procedure in all meetings of the Association and of the commissions shall be in accordance with *Robert's Rules of Order*.
